Legislative Proceedings Yesterday.

Large Number of Bills Passed.

THE FREE PIPE BILL A LAW.

Settlement of the Difficulty in the Oil Regions.

THE AUDITOR GENERALSHIP.

C. D. Brigham Nominated by the Governor.

The Apportionment Bill in Caucus.

Change in the Allegheny Districts.

Special to the Pittsburgh Press.
HARRISBURG, PA., March 12, 1872.

SENATE.

Bills Passed.

The following House bills were passed: Incorporating the Germania Sick Relief Society of Allegheny city; incorporating the Enterprise Savings Bank of Allegheny; vacating a portion of Chestnut street, Temperanceville; vacating Quarry street, Sewickley borough; divorcing Emily Calhoun late Emily Edmundson, of Allegheny county; divorcing John S. and Eliza R. Watterman, of Allegheny county; establishing a ferry over the Ohio at Shousetown; prescribing the mode of adopting and recording ordinances and resolutions of Pittsburgh Councils; supplement to the act for the appointment of inspectors of salt in Pittsburgh and Allegheny, which gives Councils the appointing power; relating to boarding house keepers in Allegheny county; authorizing Bishop Domenec to sell certain real estate; authorizing the burgess and council of McKeesport, Allegheny county, to remove bodies from the old grave yard, sell the grounds and purchase other burial grounds; supplement for the Coke Gas Company of Pittsburgh, which increases its capital $600,000; authorizing a change in the location of the Western House of Refuge; supplement concerning streets and sewers in Pittsburgh; extending the provisions of the act for the improvement of Penn avenue to Fifth avenue, Pittsburgh; incorporating the Latrobe Gas Company.

The following Senate bills were passed: incorporating the Ursuline Young Ladies' Academy of Allegheny county; authorizing the Mutual Life Insurance Company of New York to purchase real estate in Pittsburgh and Philadelphia; divorcing John Paul and Ellen H. Healey, of Crawford county; supplement for the Troy Hill road; supplement to the act for consolidating the wards of Pittsburgh for educational purposes.

Objected Off.

Mr. Graham objected off the Senate bill incoporating the Pittsburgh, Allegheny and Temperanceville Passenger Railway, and the House supplement for the Citizens Passenger Railroad of Pittsburgh, for further consultation, it appearing that these two bills cover the same streets.

Constables' Fees.

A bill from the House extending the provisions of the act of 1866, amending the constables' fee bill, to Pittsburgh, was passed to a third reading and laid over.

The Auditor Generalship.

A Governor's message was read appointing C. D. Brigham, editor of the Pittsburgh COMMERCIAL, as Auditor General, to date from the first Tuesday of May next. The Governor adds that this appointment, though good for three years, under the existing laws, is subject to legislation, and recommends that the Legislature make provisions for the election of Auditor General at the next general election.

Mr. Rutan immediately offered a joint resolution that the nomination of C. D. Brigham is hereby ratified and confirmed, and said C. D. Brigham is hereby authorized to hold said office for three years from the first Tuesday in May next. Referred to the Judiciary General.

Mr. Graham introduced a joint resolution instructing our Congressmen to support our treaties with Indians. Passed

Free Pipe Bill Passed.

Mr. Allen called up the house bill which first passed that body, being Mr. McJunkin's compromise free pipe bill for Erie, Crawford, Venango, Warren, Armstrong, Clarion, Lawrence and Butler counties, extending the free mining and quarrying act to oil production in these counties. Passed finally, and now goes to the Governor for approval.

Mr. Humphreys called up the bill protecting the health of bituminous coal miners, laid over on motion of Mr. Anderson, who moved at the telegraphic request of the Coal Exchange of Pittsburgh.

The Lancaster County Republican Primary Election

On the Crawford county plan, resulted for Governor, Jordan 3,470; Hartranft, 1,460; G. Dawson Coleman, 675. National delegates were instructed for Grant and Colfax.

The Evening Session

was devoted to the consideration of Mr. Petriken's bill creating a Board of Fishery Commissioners, and to provide for the construction of fish ways and the propagation and protection of fish, and appropriating money for the same. The bill makes James Worrall, D. William Seiler and Elbridge McConkey, of Harrisburg, State Fish Commissioners, at five dollars per day and traveling expenses. Sixty thousand dollars are appropriated to carry out the improvements in rivers and streams, including ten thousand dollars for a State hatching house. Postponed till to-morrow.

The Apportionment Bill.

The Republicans of the House were in caucus late to-night on the Congressional Apportionment bill, determining to leave Allegheny county to the decision of the Allegheny delegates. The Allegheny delegates of both Houses held a caucus, recommending that the north side of the river be kept intact, and as much of the lower part of the south side as will make a district, the balance of the county to be the other district, including Pittsburgh. They meet again to-morrow morning.

HOUSE OF REPRESENTATIVES.

The free pipe bill, authorizing companies to be formed under the General Manufacturing and Mining Law, for laying pipe for transportation of oil came up. Mr. McJunkin offered the following amendment: "Provided, That no line of pipe shall be laid under authority of this act within five miles of the State line for the purpose of carrying oil out of the State, and that owners, producers and shippers of all oil intended for Philadelphia, Baltimore and New York using pipe laid under this act, shall give the preference to lines of road traversing the greatest distance in this State, at the same rates for transportation." This is understood to be a compromise between the oil producers and transportation companies, and to be a settlement of the existing difficulties in the oil regions. The bill passed as amended by McJunkin, and having passed the Senate in a brief time was signed by the Governor and is now a law.

STATE LEGISLATURES.

Ohio.

COLUMBUS, March 12.—In the Senate a bill was introduced to so amend the municipal code as to remove from cities and villages the power to prohibit the sale of native wine, ale, beer and porter.

The House passed a bill making it unlawful for judges of elections to postpone the counting of the votes or to adjourn for any time or to any place, or to remove the ballot box from the place of voting, or from the custody of all the judges. The House spent all the evening discussing the bill providing for the election of delegates to the constitutional election and finally laid it on the table. There was quite a diversity of opinion as to when the delegates should be elected. A proposition to postpone the election until April, 1873, was voted down.

Tennessee.

NASHVILLE, March 12.—The Legislature met in called session to-day, the principal object being to apportion the State into Congressional districts and devise measures for improving the State finances. Governor Brown sent in a brief message, rehearsing the topics of legislation by which the Legislature must be governed.

THE WEATHER.

WAR DEPARTMENT,
OFFICE OF THE CHIEF SIGNAL OFFICER,
WASHINGTON, D. C., March 13, 1872, 1 A. M.

PROBABILITIES.

The low barometer over Iowa will probably move northeastwardly over Lake Huron, and excite a severe storm with diminishing winds thence southeastward and eastward to the Atlantic, and winds gradually backing to southerly and easterly; clear and pleasant weather will prevail on Wednesday over the New England, Middle, South Atlantic and Western Gulf States, with rising temperature; an area of threatening weather with snow will extend southward over the lower lake region, with increasing to very brisk southerly winds; falling barometer, northwesterly winds, falling temperature and clear weather will prevail over the Northwest, and extend on Wednesday to Lake Michigan.

Fire in Sharpsville, Pa.

Special Dispatch to the Commercial.
SHARPSVILLE, PA., March 12, 1872.

The dry goods store of P. Beil & Son caught fire about nine o'clock last night, from the explosion of a kerosene lamp, destroying about two-thirds of the goods. Loss about two thousand dollars, fully insured in the North America of Philadelphia.

XLII CONGRESS.

WASHINGTON, D. C., March 12, 1872.

SENATE.

A bill was introduced to provide an adequate supply of circulating medium for States needing it. It directs the Secretary of the Treasury, on application of the Governors of States, to supply them with treasury notes to an amount which, in connection with national bank notes already furnished, shall make eight dollars for each inhabitant, provided State security is given for the repayment of such sums in fifteen years.

The Senate then resumed consideration of the Legislative appropriation bill. The pending question was an amendment repealing the law authorizing the publication of the laws in newspapers. Mr. POMEROY moved to lay the amendment on the table. Agreed to, years 22, nays 21. An amendment was adopted appropriating $50,000 for the publication of laws in newspapers.

Mr. EDMUNDS offered an amendment providing that after the publication of the laws of the present Congress the publication of the laws in newspapers shall cease. Adopted.

An amendment was offered raising the salaries of Assistant Secretaries, Second Comptroller, Register, Auditor, Commissioner of Customs and Supervising Architect of the Treasury Department, the Assistant Postmaster General, Superintendents of Money Orders and of Foreign Mails, Commissioner of Pensions and Commissioner of Indian Affairs to $4,000.

Mr. SHERMAN offered an amendment to the amendment, increasing the salaries of all heads of bureaus in the departments to $4,000.

A motion to lay the amendment on the table was lost.

Mr. SAWYER moved to add the Commissioner of Education to the list. Agreed to.

Mr. LOGAN moved to add the Supervising Officer of Marine Hospital. This gave rise to discussion, pending which the Senate adjourned.

HOUSE OF REPRESENTATIVES.

A resolution declaring B. F. Myers entitled to a seat from the Sixteenth Pennsylvania district was adopted.

The postoffice appropriation bill was taken up in committee of the whole. Mr. WOOD criticised the statement of Mr. Dawes a few days since, as to the receipts and expenditures of the government, claiming that the revenues the present year would reach nearly $376,000,000, and the expenditures not more than $302,000,000, leaving a large surplus which might properly be dispensed with, thereby lightening the burdens of the people.

Mr. DAWES replied, reiterating his former statements.

After further debate, without disposing of the bill, the committee rose and the House adjourned.

REDEEMED ERIE.

Gould Throws Up His Hand and Makes Terms with the New Directory.

NEW YORK, March 12.—The resignation of Jay Gould as President of the Erie Railroad is said to have been accomplished as follows: General Sickles was empowered by the Board to offer an ultimatum that Gould, Eldridge, Sherwood and Drake be permitted to retain positions as Directors if they came into the session of the new Board. The General with much difficulty gained access to Gould's stronghold, where, after considerable discussion, the terms were acceded to. These gentlemen attended the session, at which all acts of the new Board were confirmed, and Gould's resignation was offered and accepted. Lynch and his men were dismissed, order restored, and the police left the building. General Dix then took formal possession of the President's room. It is rumored that Judge Ingraham, who is at home sick, has issued an attachment against John Hilton, one of the new Board, for alleged contempt in violating the injunction order issued yesterday.

NEW YORK.

NEW YORK, March 12, 1872.

THE NEWS OF THE DAY.

The national camp of the Protective Sons of America commenced its session to-day.

It is stated that Mayor Hall will commence suits against the *Tribune* and *Harper's Weekly*, and George Jones, of the *Times*, personally, if the case now on trial results favorably.

Henry Bergh has gone to Savannah for his health, which is precarious.

Alfred Haffy, who commanded the British regiment guarding Napoleon at St. Helena, died in Brooklyn Sunday, aged seventy-eight.

The investigation of the case of Superintendent of Insurance Miller to-day took a singular turn, when A. St. Clair, the *Times* reporter, who collected the material for the articles against Miller, testified in substance that he was employed as a detective, and departed to work up the evidence against Superintendent Miller; that he visited nearly all the officers of companies, and none of them except Jones, of the National Life Company, had any complaints to make. He described the orders received from the managers of the *Times* to work up the case; the story given him by Mrs. Barnes of presents of jewelry to Mrs. Miller, and declared they were made to the wife of Miller, the court house carpenter. Witness admitted that as far as his investigation went, the reports did not justify the charges made. He stated on the contrary that the representations of English, who claimed to want an investigation by the Legislature to get Miller turned out, proved false, and the *Times* editor ordered him to cut him.

A Highway Robber from Toledo Arrested in Lima, Ohio.

Special Dispatch to the Commercial.
LIMA, O., March 12, 1872.

A telegram from Toledo yesterday to our Sheriff announced a bold highway robbery there, amounting in the aggregate to twelve thousand dollars, perpetrated by Thos. White, *alias* Mike Callahan, upon John A. Miller, a drover of Gasden, Indiana, and that the robber was on a freight train due here at noon. When the train arrived it was learned that Callahan had got off at Cairo, six miles north of here. Officer Bastable went there on the first train, but the robber had fled through the woods in an eastward direction. Last night about eleven o'clock Callahan came here on a train from the East, stopping at the Cliff House at the depot, asking to be hid. He was shown to a room, when he laid down and was soon asleep, revolver in hand. Charley Helpman, a lad of fifteen, in charge at the hotel, immediately informed officers Bastable and O'Neal, who arrested him. Seventy-three dollars in currency was found on his person, a fine gold watch valued at $150, and the revolver. It seems he left some eight thousand dollars in United States bonds at a saloon in Toledo, which were subsequently recovered. It is not known what disposition he made of the balance. Callahan met Miller on the street, pulled out a large knife, demanded his money, and, it is said, stabbed Miller severely before he obtained it. He is now in jail here, and will be taken to Toledo for trial. He formerly worked in Lima, and was known as a very bad character.

STATE POLITICS.

By Associated Press.

LANCASTER, PA., March 12.—The district delegates chosen here to-day to the National Republican Convention were instructed to vote for Grant and Colfax.

The delegates to the Democratic State Convention from Perry county are instructed for General George W. Cass for Governor and Hon. James H. Graham for Supreme Judge.

The Philadelphia *Press* of Monday says: "A distinguished gentleman declares, in this morning's *Press*, in favor of Professor Wickersham, Superintendent of our Common School System, as his choice for the Republican candidate for Governor of Pennsylvania. We add freely that the Professor would fill the place honestly and ably. We cannot enter the Great Campaign this year with a nominee for Governor who is not fully equipped to champion his party on the stump. We want bold words spoken by a gifted man. We demand a canvass like that of Curtin in 1863, who by his electrical eloquence vitalized and gave victory to the Republican organization. The Republican candidate for Governor of this great State should be one fit to stand in the shoes of Simon Snyder and George Wolf."

The primary election in Lancaster county on Saturday, resulted in the election of Messrs. Henderson and Strohm as delegates to the National Republican Convention, instructed for Grant; and Messrs. Franklin, Diffenderfer, McGowen, Muhlenburg and Strine delegates to the State Convention, instructed to support Col. Frank Jordan for Governor. The *Express* says the new primary election law worked well, and that this was the most fairly conducted election ever held in the county.

The Scranton *Democrat* is opposed to passivism, and calls for a pure, unadulterated Democratic National Convention, to nominate a simon-pure, original Jacob ticket. "The masses of the Democratic party," it says, "will not be governed by deserters from the enemy's camp."

A NEW YORK street car conductor, of many years' experience, who has been discharged for "knocking down," publishes an expose of the grand stealing operations in vogue among the street car employees there. A conductor of a car receives two dollars a wages daily, and must divide every week about fifteen dollars between driver, starter and receiver, or else they conspire to throw him behind time and diminish his receipts below the minimum. To get a situation a conductor must pay from twenty to fifty dollars to the Superintendent. Drivers in turn are bled by the foremen of stables, who apportion the best horses to the most liberal, and honest conductors are hunted off the road in a very few days. But few are troubled in that way. On a holiday, when the cars are unusually jammed, a conductor steals from nine to fifteen dollars, but ordinarily from four to eight dollars. In spite of this leak, the main lines in New York pay enormous dividends, and no stock can be bought.

NEW HAMPSHIRE.

THE STATE ELECTION YESTERDAY.

Few Returns Received—Indications Favorable to the Republicans.

CONCORD, March 12.—The State election for Governor, Railroad Commissioner, Councillors and members of Legislature is being held to-day. The Republican candidate for Governor is Ezekiel A. Straw; for Railroad Commissioner, Albert S. Twitchell. The Democratic candidate for Governor is James A. Weston. Henry Colany for re-election as Railroad Commissioner. The vote cast is quite heavy notwithstanding the boisterous snow storm.

CONCORD, March 12.—Straw's majority in Manchester will exceed 500. Dover gives Straw 345 majority.

PORTSMOUTH, March 12.—Straw, 1,206; Weston, 889.

CONCORD, March 12, 9:35 P. M.—Returns of the vote for Governor received from fifty-seven towns give Straw, Republican, 13,470; Weston, Democrat, 12,385; Blackmore, Temperance, 85; Cooper, 116; scattering, 45, giving a majority in these towns of 839 for Straw. These towns last year gave Pike, Republican, 10,693; Weston, Democrat, 11,379; Cooper, Labor Reform, Corning, Temperance, and scattering, 243.

BOSTON, March 12.—Straw is probably elected. The indications are that the Legislature is Republican.

CONCORD, N. H., March 12.—One hundred and twenty towns foot up, Straw, 24,570; Weston, 22,622; Blackmore, temperance, 196; Cooper, Labor Reform, 270; scattering, 71; Straw's majority, 1,411, which will be reduced somewhat by returns to come.

THE LATEST.

MANCHESTER, N. H., March 12.—Returns from the State, as far as received, indicate the election of Straw by about 1,500 majority. The Republicans are holding a congratulatory meeting at City Hall. Short speeches are being made, and election returns are being read to the audience. The Republicans have made a gain of seven Representatives in this city, and have probably secured a good working majority in the Legislature.

PORTSMOUTH, March 12.—The Republicans are jubilant over the result of the election, and paraded the streets till a late hour with a band of music. Marcy, Democrat, is defeated by Warren Brown in this Senatorial District, by 200 majority.

CONCORD, N. H., 1:30 A. M., March 13.—One hundred and seventy-four towns give Straw, 32,339; Weston, 29,812; Blackmore, Temperance, 338; Cooper, Labor Reform, 391. The Legislature stands: Republican 167, Democrat 101, Labor Reform 3, Temperance 2.

POLITICAL.

Wisconsin Republican Convention—Delegates for Grant.

MADISON, March 12.—The Republican State Convention for the appointment of delegates to the National Convention will meet at the capitol to-morrow at noon. Every indication seems to point that the delegates will be instructed to vote solid for Grant. The delegates will not be instructed for Vice President.

Kentucky Republican Convention.

LOUISVILLE, March 12.—Delegates to the Republican State Convention, to be held to-morrow, are arriving in considerable numbers to-day. General John M. Harlan will probably be permanent chairman. The Convention is strongly for Grant.

Formal Invitation to the National "Liberal" Convention.

CINCINNATI, March 12.—At a meeting of the new departure men at College Hall, to-night, the following resolution was adopted:

Resolved, That we invite all voters, whether of Democratic, Republican or other party antecedents, who are willing to unite with us in favor of sustaining the Constitution as it is, of civil service reform, a tariff for revenue only, general amnesty for all past political offenses, of local self government, to meet in National Convention at Cincinnati, O., on the first day of May next to decide on the best plan of action to secure the above named objects and the promotion of the general welfare.

Cumulative Voting in Boroughs.

To the Editor of the Pittsburgh Commercial:

Hon. T. J. Bigham, in his recent lecture on Constitutional Reform, in referring to the question of cumulative voting, said:

"In 1871, in restoring spring elections to the third Friday of March, it was provided that members of the borough council, six in number, shall be elected in the manner indicated, in the borough of Bloomsburgh; that is to say, each voter may vote for one man six times, or six men one each, as at present; or he may vote for two, three, four or five members; he may also vote in fractions of one-fourth, one-third or one-half, so in the aggregate not to exceed six votes."

I think that the lecturer has fallen into a serious error in illustrating the manner in which each elector can vote for the six members of Borough Council. As this is at present a matter of very considerable importance in this locality, from the fact that many boroughs will have to try this experiment at their annual elections next Friday, I propose to point out wherein I think the error is—and this not for the purpose of unkindly criticising the lecturer, but to aid our people in forming a correct judgment in regard to this question.

The act of June 2, 1871, provides "In elections for members of Town Councils each voter may at his option bestow his votes singly upon six candidates, or cumulate them upon any less number, *in the manner authorized by the fourth section of the act to define the limits and to organize the town of Bloomsburg*, approved March fourth one thousand eight hundred and seventy.""

The Bloomsburg act very clearly defines the manner in which electors may bestow these votes. The fourth section provides "in any case where more persons than one are to be chosen in said town to the same office, for the same time or term of service, each voter duly qualified shall be entitled to as many votes as the number of persons to be so chosen, and may poll his votes as follows, to wit:

* * * * * * *

"Fourth. Where six persons are to be chosen he may give one vote to each of six candidates, one vote and a half to each of four, two votes to each of three, three votes to each of two or six votes to one."

* * * "Whenever a voter shall intend to give more votes than one, or to give a fraction of a vote to any candidate, he shall express his intention distinctly and clearly upon the face of his ballot, otherwise but one vote shall be counted and allowed to such candidate."

I have omitted the provisions of the act applying to cases where two, three and four persons are to be chosen, because with us the act has no application except in the election of borough councilmen.

It is evident from a careful examination of the Bloomsburg act that less than one full vote cannot be counted for any candidate, because the manner of voting is in groups, that is to say one vote for each of six persons, one and a half for each four, two for each of three, three for each of two or six for one. There is no fraction of a vote allowed by the act unless coupled with a whole vote. The latter part of the above quotation from the act provides for cases where a voter intends to give a fraction of a vote to a candidate, but it does not allow a bare fraction, or less than one whole vote to be given. The meaning of the word "fraction" is limited and defined by the preceding part of the act, as in the case of Councilmen, one and a half vote may be given for each of four persons. If this be not the case it is without limit, and would give the right to divide a vote into the least comprehensible fractions—a result certainly not contemplated by the Legislature.

The votes can only be cumulated in the manner provided—that is, all the names on the ticket must receive an equal number of votes. The voter has not the right to cumulate as he thinks fit, but as the law prescribes. There can be but five combinations made out of the system—that is one ticket containing one name, one containing two names, one containing three names, one containing four names, and one containing six names, and each name must receive the same number of votes.

The following illustrations will make this more obvious. One voter may desire to cast all his votes for one candidate, and makes his ticket,

John Smith, six votes.

Another voter desires to give his to two candidates, and proposes his ticket,

John Smith, three votes.
John Jones, three votes.

Another casts all for three, and his ticket is,

John Smith, two votes.
John Jones, two votes.
John Johnson, two votes.

Another votes for four, as follows:

John Smith, one and a half votes.
John Jones, one and a half votes.
John Johnson, one and a half votes.
John Robinson, one and a half votes.

The other mode is the old way of putting six names on the ticket without designating any number of votes.

I cannot, without extending this communication to unnecessary length, illustrate what combination would not be lawful. It will suffice to say that as I am able to understand the system as laid down in the Bloomsburg act, there can be none other than those I have given.

BOROUGH.

At San Francisco, Monday, Captain Elisha Freeman was granted a divorce from Charlotte Freeman, on the ground of fraud in procuring the marriage. Freeman alleged that previous to the marriage he was insane on spiritualism, and believed that he navigated his ship under the direction of the spirit of an old Spanish pirate. Visiting the defendant, who claimed to be a clairvoyant and medium, to consult as to whether the spirits were genuine or not, he was assured they were, and that in two days he would see at the foot of his bed the woman he must marry. He saw at the time and place predicted the medium herself, and under the direction of spirits, interpreted through her, married her, though much against his will and judgment. On this showing the divorce was granted. Freeman is wealthy.

WASHINGTON.

Eastern Terminus of the Union Pacific Railway.

Mr. Sumner Deceived in the Arms Business.

The French Assembly Asked No Inquiry.

LAND GRABBERS BROUGHT UP SUDDENLY.

Special Dispatch to the Commercial.
WASHINGTON, D.C., March 12, 1872.

Eastern Terminus of the Union Pacific.

The Secretary of the Interior, having referred the question of the proper construction of the law fixing the eastern terminus of the Union Pacific Railroad to the Government Directors, the latter have made an unanimous report which, after a full review of the case, expresses the opinion that the terminus must be at Council Bluffs instead of Omaha. The opinion closes as follows: "The provision of said agreement, together with all others tending to change the eastern terminus of said road from the eastern to the west side of the Missouri river, or tending to shift the responsibility of maintaining said Union Pacific bridge from said company to its connecting lines, we find to be in direct and palpable violation of its charter, and detrimental to the interests of the public."

Mr. Sumner Deceived in the Arms Business.

Thomas Richardson, of Ilion, N. Y., sends a copy of the following dispatch here which he has just received from Henry Moreau, Paris: "Mr. Sumner was deceived when stating that the committee of the National Assembly on war contracts adopted a resolution asking the results of the inquiry from the United States government about sales of arms. I have been repeatedly told by the most influential members of the committee that no resolution for such inquiry has been passed nor thought of by the committee. Make of my declaration the use you please."

Relief Bill.

A bill passed the House to-day for the relief of Herman Roester, Collector of Internal Revenue for the First District, Chicago, provides for the cancellation of all government accounts, of losses of books and stamps through the late fire.

The Chicago Bill.

Several Michigan delegations, representing the lumber interests of that State, arrived here to-day, and propose urging upon the Senate the necessity for their having a hearing before the Finance Committee upon the Chicago Relief Bill. Mr. Chandler will make a motion for recommittal in the morning hour to-morrow, and both he and Ferry are sanguine that this motion will be successful. The persistent opposition of the lumbermen and representatives of the lumber interest in Congress to this measure has created comment in several quarters, and the propriety of introducing a bill to put lumber on the free list is being discussed with more earnestness than ever. A strong fight will be made by the friends of the bill against recommittal, and the strength and sincerity of its friends will be developed on the vote for that purpose.

Land Grabbers Get a Set Back.

The land grant and railroad chartering business received a severe set-back in the Senate to-day. Osborne brought up his great Southern Railroad scheme, which on its face simply asks for the right of way through Florida, but which in reality is comprehensive enough to marshal quite a respectable lobby in its behalf. One of the queer features of the scheme is that the road shall be empowered to mortgage their property and franchises to the extent of thirty thousand dollars per mile, such mortgage to be recorded in the Interior Department. Mr. Morrill, of Maine, in criticising the bill, made some severe comments upon the granting of valuable franchises to irresponsible railroads companies, without organization or capital, who ask these privileges merely that they may sell them to the highest purchaser. In the course of his remarks he reviewed the whole land grant policy in such a manner as to bring Pomeroy to his feet in its defense. Pomeroy endeavored to show that but twenty-six millions of acres of lands had been patented under railway grants, and that in stating such grants to amount to nearly three hundred millions of acres, the Senator from Maine had been guilty of gross exaggeration. To this imputation Morrill made a most scathing reply. Stepping out in front of his desk, he shook his finger at Pomeroy, and suggested that he desired neither interruption nor information from that quarter. The Senator from Kansas might impose upon himself by such a statement, but not upon intelligent Senators. As to the amount of acres of public lands granted, that was a matter of official record. The mere number of patents granted only demonstrated that railroads neglected obtaining them in order to avoid paying taxes. He would not permit Pomeroy to quibble with him about a matter that none were better posted upon than the Senator from Kansas. Morrill's arraignment of the whole land grant policy was very effective, and especially his reference to encouraging an enterprise where no enterprise existed. Osborne's bill subsequently passed, but shorn of everything except a grant of the mere right of way to the company benefitting.

Bridge at Clinton, Iowa.

The House Committee on Commerce to-day agreed to report favorably upon the bill which recently passed the Senate to build a bridge across the Mississippi at Clinton, Iowa.

Laid By.

The House Committee on Elections have indefinitely postponed the consideration of the Schenck-Campbell contest.

The Trouble About Military Rank.

The House Military Committee to-day gave hearing to officers of the Quartermasters Department, who made the late secret attempt to secure the total rearrangement of rank in that Department, without allowing those affected unfavorably by the change to know anything of the movement. The hearing was upon the Senate bill, which was explained in the Senate as only giving officers neglected in promotions the places they were entitled to by rank at the time they were overlooked, without changing the rank of any of the others. It came out, however, that the bill had been drawn with a provision that really accomplished for the officers at work in the first movement all then contemplated, except the matter of back pay. It also appeared that the matter was first called to the attention of General Horace Porter, and then to that of the President as a mere matter of correcting the record, and in this way nominations came to be made which turned out to be illegal. The House Committee will probably amend the bill, and before it has passed the whole subject will be thoroughly ventilated.

Greeley's Platform.

Horace Greeley writes to the editor of the Alexandria, Virginia, *Standard*, under date New York, March 7th, in substance as follows: "I am working in the interests of a conservative party, and will continue to do so until the end, not caring who the candidates may be; but if the Cincinnati convention put an anti-tariff plank in their platform, you may count me out."

WASHINGTON, D. C., March 12, 1872.

SALES OF ARMS TO THE FRENCH.

The House Committee on Expenditures in the War Department to-day examined Mr. Squires, agent for Remington. He testified that after the 15th of October, 1870, when the order was given by the War Department not to sell arms to Remington & Sons, Squires employed other parties to buy for them, taking care to conceal their connection from the officers of the Government. Not only were arms purchased from the War Department, but other arms, Remington's, Colt's, &c., were placed on pier 50, from which the French steamers sailed. During the proceedings a dispatch, dated Paris, 2d March, 1872, signed Henry Moreau, was read.

SODA ASH ON THE FREE LIST.

The Senate Finance Committee agreed that soda ash shall go on the free list.

THE CUSTOM HOUSE INVESTIGATION.

In the Custom House Investigating Committee, the examination of Townley, assistant appraiser at New York, was resumed. He testified that James M. Thompson came to Palmer's office seeking patronage, and that after he left, Palmer told witness that Thompson wanted a place, but could not get it, as he [Palmer] did not believe Thompson to be honest. Witness also stated that in speaking about the approaching New York Convention, Murphy said that the President's desire was that the heads of the different departments should work as a unit and exercise some influence in the convention; and that something should be done by them collectively toward the selection of delegates. Witness recollected Gen. Palmer's statement to be that Murphy said that rich men ought to be picked out, so that they might pay something for the honor of going to the convention. The recollection of witness was that Murphy said that Governor Woodford was the President's candidate for Governor. James Terwilliger coming in, said that Horace Greeley would be a good candidate.

George W. White, a commission merchant of New York, swore that he became acquainted with Colonel Leet in September, 1864; some time in the month of May, 1869, Leet showed him a letter from President Grant. From his first conversation with Leet in April, 1869, he supposed Leet was to get the general order business, and that it had been promised by Collector Grinnell. Leet also informed him that he had dined with Collector Grinnell and Generals Porter and Babcock and several New Yorkers at Willard's Hotel. Leet stated to witness after the interview with Grinnell that there were influences at work to divide the business into small portions, but Leet remarked that he was going to have it all, and told Grinnell that if he could not get it all from him he would have another Collector who would give it to him. Leet thought a letter from the President was equivalent to the procuring of the general order business. Leet said Grinnell offered him $5,000 a year if he would abandon his application for that business and stay where he was. Being cross-examined by Senator Pratt, witness said he would not be certain that the dinner at Willard's was before or after Grinnell's appointment, but had an impression it was after. It struck him from Leet's representation that Grinnell himself would give him $5,000. In reply to Senator Bayard, witness said that Leet exhibited to him only a single letter, namely, that from the President. It was at his second interview with Leet that he (Leet) informed him that the matter of his getting the general order business was settled at a dinner at Willard's Hotel, at which Grinnell, Generals Porter and Babcock and others were present. Senator Casserly also examined the witness, who said that from the conversation with Leet he inferred that he [Leet] was well indorsed at the White House. This was in May, 1869. Question—Did you understand what particular interest Gens. Porter and Babcock had in the getting of the general order business? Witness—I did not. The committee adjourned until to-morrow.

EUROPE.

BY THE ATLANTIC CABLE.

Cholera in Calcutta.

LONDON, March 12.—A telegram from Calcutta announces that several cases of cholera have occurred among the forces of General Bourchain.

The Czar and the Poles to be Reconciled.

LONDON, March 12.—A dispatch from Paris says that a number of prominent Russians are negotiating with the Polish refugees there for their return to their native country. The negotiations look to a reconciliation between the Czar and the disaffected Poles, and a general amnesty, and the appointment of the Grand Duke Alexis to be Viceroy of Poland.

Miscellaneous Dispatches.

PARIS, March 12.—It is stated that the Government is negotiating with the Government at Berlin with the view of anticipating the full payment of the war indemnity, thereby securing the complete evacuation of France by the Germans.

ROME, March 12.—It is rumored that Prince Frederick Charles, of Prussia, while in this city recently, asserted his claims to the candidature for the throne of Spain.

CONSTANTINOPLE, March 12.—It is announced that the Khedive and Bey of Tunis will visit the Sultan during the month of April.

PARIS, March 12.—The Prince and Princess of Wales lunched to-day with the Prince and Princess De Joinville, the Duke D'Aumale, Count and Countess of Paris, and the Duke De Nemours. They afterwards received a visit from Thiers, who was accompanied by his staff. The Prince and Princess are in excellent health. They depart to-morrow for Cannes.

The delegates from Metz who have been in attendance on the commission on military capitulations, in a letter to the *Republique Francaise*, announce that the commission has concluded taking testimony in regard to the surrender of Metz, and that the evidence is strongly against Marshal Bazaine.

The Assembly to-day was engaged in discussing the minutes of yesterday's sitting. Deputy Victor Schoalcher declared that the vote to pass the order of the day was adopted yesterday under circumstances which rendered it null and void. Deputy Brisson accused M. Vitel, President *pro tem.* yesterday, of gross irregularities, and charged that the minutes had been falsified. A scene of indescribable violence ensued, and the President, unable to bring the members to order, was obliged to suspend the session for thirty minutes. After the recess the Assembly, by a large majority, passed a resolution censuring Deputy Brisson for his unjust accusations and intemperate language.

A meeting of shareholders of the Suez Canal was held here to-day. President Lesseps made a report, in which he states that the direction of the company has no intention of selling the canal to any government; that the traffic over the canal is largely increasing, and the receipts during the months of January and February of the present year amounted to 2,577,000 francs.

LONDON, March 12.—Lady Mordaunt is pronounced by medical authority incurably insane, and the petition of Sir Charles, her husband, has been dismissed.

BERNE, March 12.—The Federal Council has sent secret agents to the Canton of Ticino, on the Piedmontese frontier, to watch the movements of the Italian revolutionists, who are reported to be very active just now.

BERLIN, March 12.—Bismarck has left Berlin to visit his Lanenburg estates.

MADRID, March 12.—The *Gazeta* publishes a decree authorizing Ortega to lay a direct telegraph cable between Spain and England.

Marine News.

Special Dispatch to the Commercial.
FORT WAYNE, IND., March 12, 1872.

The funeral of Hon. John Colerick took place at two o'clock to-day, and was one of the largest ever seen in Fort Wayne. An immense concourse of people from the city and country were in attendance at the funeral exercises in the Cathedral.

The editorship of the *Volksfreund* of this city has been accepted by Prof. Rudolph Woerce, late of the Cincinnati *Volksblatt*.

The Western Hotel at Wendon, Mich., was destroyed by fire this morning about five o'clock. Loss about $10,000; insurance $5,000 in the St. Joseph County Mutual of Michigan. It was owned and occupied by G. W. Van Buren. Cause, defective flues.

LADIES' TRACT SOCIETY.

Twenty-eighth Annual Meeting—Reports of the Secretary and Treasurer—Election of Managers.

The twenty-eighth annual meeting of the Ladies' Tract Society of Allegheny was held Monday afternoon in the First Presbyterian Church.

Mr. J. T. Huston read the annual report of the Secretary. The report showed that the Society had accomplished a great work during the past year. The Society has circulated 240,000 pages of English tracts, 96,000 pages German tracts, 31,250 American Messengers and 10,250 German messengers. Many children have been gathered into Sabbath schools. The Bible Reader, since June last, has made 1,358 visits for religious conversation, reading and prayer.

The report of the Treasurer showed that the receipts during the past year were $919 67, and the expenditures $867 26, leaving a balance on hand of $52 41.

The time of holding the annual meeting was, on motion, changed to the second Monday of January.

The following officers and managers were elected for the ensuing year:

President—Mrs. F. R. Brunot. Vice President—Mrs. Nelson. Secretary—Mrs. R. S. Hays. Treasurer—Miss M. Herron. Managers—Miss M. Bryan, Mrs. Slagle, Miss Paul, Miss Whitten, Miss Beck, Mrs. Vankirk, Miss Orr, Mrs. W. P. Logan, Mrs. E. C. Cochrane, Mrs. Poindexter, Mrs. A. M. Bryan, Mrs. C. Oudry, Miss Blackstock, Mrs. Hoag, Mrs. Kay, Mrs. A. Morrison, Mrs. T. McFadden, Mrs. F. Woods, Mrs. Livingston, Mrs. T. Jamison, Miss Pattinson.

WAIVER OF EXEMPTION.

What the Supreme Court Has Decided.

It is thought by most people that they can sign notes and leases with the waiver of exemption in them, and not incur any liability thereby. One of our newspaper editors has taken this view, and those who act upon the advice may get into serious trouble. Justice Lewis, in a case reported in II Harris, 93, said: "It has been repeatedly decided by this Court that the exemption of goods from execution, under the act of 1849, is a privilege for the benefit of the debtor, which he may waive, even by the omission to claim it at the proper time, without any express contract for the purpose. But where, at the time of contracting the debt, he agrees to waive the benefit of the exemption, and this forms the ground of the credit given to him, the injustice of permitting him to violate his contract, and thus to defraud his creditors, is too palpable to need illustration, or to require the aid of precedents to discountenance it." This ruling was received until 1859, when Justice Strong in Bowman *vs.* Smiley reported in 7 Casey, 225, thought fit to say that "when (the exemption is) made at the time the debt is created, the waiver is based upon the same consideration as that upon which rests the liability to pay, and is therefore irrevocable," thus making the decision even stronger. It is argued by some that the law was made for the benefit of the wife and children, and that therefore the husband is not allowed to take away this very benefit that a generous act of Assembly saw fit to give them. We do not propose to say what the intention of the Legislature was, but to state the law as it has been settled by many decisions of the Supreme Court, and to warn people from attempting to take avantage of their own wrong. With regard to leases, it is needless to say that, were the law otherwise, the landlord would be compelled to require bail, or the rent in advance.

The Steamboat Association.

Yesterday morning, at 11 o'clock a meeting of the Steamboat Association was held, pursuant to call, at the office of Hon. Joseph Walton, on Water street. N. J. Bigley presided, and Simpson Horner was chosen Secretary pro tem.

A resolution was adopted appropriating five hundred dollars to Mr. Rhodes for the purpose of prosecuting the McMillan capstan case before the United States Supreme Court.

On motion, a committee consisting of Captains J. A. Blackmore, James Watson, Madison Bailey and Simpson Horner, was appointed to confer with Captain McMillan, and for other purposes.

The Treasurer was ordered to pay the bills of the Association contracted by the committee sent to Washington by the Association.

The meeting adjourned to assemble this morning at 11 o'clock.

CITY MATTERS IN BRIEF.

THE Central Board of Education should hold its meetings down town.

MRS. CHANFRAU's new piece "The Bond Robbery," attracts fair audiences.

"BERTHA, the Sewing Machine Girl," continues to draw large audiences to the Fifth Avenue Opera House.

THE first batch of merchants summoned for obstructing the pavements, will appear before the Mayor on Saturday.

THE new High School, furnished complete, cost $190,700 50. The building committee having it in charge has been discharged and their accounts approved.

THE hose-carriage for the new engine house on Center avenue, Eleventh ward, has been received and housed. The engine is expected daily.

THE jury in the case of John Dignum, killed on the Connellsville Railroad, at the foot of Ross street, rendered a verdict of accidental death.

LAST night, about eleven o'clock, some malicious individual hurled a paving stone through the large plate glass window of the Tenth Ward Bank, on Penn and Seventeenth streets. No arrests were made.

AN Italian woman, named Kate Mulanari, yesterday made an information against J. B. Paoli, charging him with assault and battery before Alderman Strain. The magistrate issued a warrant.

THE Second Methodist Church, Wylie street, had the benefit of a lecture last night by Alexander Clark, editor of the *Methodist Recorder*, on "Possibilities." The lecture was a very interesting one.

ASSAULT and battery is the charge preferred by John Lee against John Sweitzer before Alderman O'Donnell. The parties had a fight and the Alderman adjudged them equally injured and divided the costs between them.

THE eleventh meeting of the Pittsburgh Teachers' Institute will take place at the new High School building on Friday evening next, and will be continued on Saturday morning.

JOHN FINN, formerly on the reportorial staff of the defunct *The Paper*, in this city, was knocked down on East Broadway, New York, Monday night, and robbed of a gold watch and $30. He was seriously injured. One of his assailants have been arrested.

THE Sheriff of Huntingdon county yesterday sent twenty-five dollars to this city for the purpose of having John Hauch, the supposed escaped prisoner from the county aforesaid, conveyed to the Huntingdon county seat. The mission will be fulfilled.

A CHARGE of abandonment has been preferred by Mary Gilfallion against her husband, Patrick, before Alderman Strain. Patrick is charged with failing to support his wife, and, furthermore, with threatening to do her serious bodily injury. The defendant has been held for a hearing.

JAMES CUNNINGHAM, a substitute on the police force, yesterday appeared before Alderman O'Donnell to answer a charge of assault preferred by James Murphy. The prosecutor alleged that the defendant arrested him without cause, and caused him to be locked up for over an hour in the Central Station House. Bail was given for a hearing.

ALDERMAN JOHN A. STRAIN yesterday had before him George Jenkins, charged with larceny as bailee by Samuel M. Young, a livery stable keeper. The allegation is that Jenkins obtained a saddle worth twenty dollars from Mr. Young and did not return it as in duty bound. The defendant resides at Nilesville, on the Monongahela river, to which point an officer has been dispatched in quest of him.

ALDERMAN SAMUEL McMASTERS yesterday caused the arrest of John Gribben, charged by Wm. L. Gold with the larceny as bailee of a ten dollar note. The prosecutor alleges that he gave the defendant the money for the purpose of purchasing newspapers for his son to sell, and that Gribben failed to purchase the papers and applied the money to his own use. The defendant entered bail for his appearance at court.

MR. SYDNEY MARLOWE, the popular young actor and elocutionist, returned yesterday evening to this city, after an absence of four weeks, during which time he gave several public and private dramatic readings with marked appreciation. Mr. Marlowe will appear at the New Pittsburgh Opera House, on the 28th of March, in Bulwer's masterpiece of *Richelieu*. Mr. Marlowe's friends wish him every success.

YESTERDAY afternoon Wm. Haley, lately employed on the Connellsville Railroad, appeared before Alderman O'Donnell and charged a back-driver, name unknown, with the larceny of a trunk. Haley alleged that he had employed the driver to carry the trunk, which he alleged contained $600 in notes, and $150 worth of clothing, from the Connellsville depot to the Rush House. The property had never been delivered. The Alderman's police are endeavoring to find the driver.

MR. DONNELLY, yesterday, amputated the great toe of a man who recently had that member severely crushed in a mill some days ago. When he had successfully completed the operation, a minor son of the injured man took it into his head that the Doctor was endeavoring to kill his father, and, as the gentleman was leaving the residence of his patient, he was confronted by the lad with a brick in each hand who threatened to assassinate him. It was some time before the Doctor succeeded in pacifying the lad and assuring him that his father would soon be about again.

AT the last meeting of the Water Committee of Allegheny Councils, the following contracts for furnishing supplies for the Water Department the ensuing year were awarded: Water pipe, branches, sleeves, etc., Messrs. William Smith & Co. Miscellaneous castings, Messrs. Gibson & Riddle. Stop cocks and fire plugs, Messrs. J. R. Hutchinson & Co. The fire plugs are to cost forty-two dollars each, and stop cocks, which range in size from four to twelve inches, will cost from sixteen to eighty-four dollars per dozen. Various sizes of ferrules, Hewitt Bros., the price ranging from ten to twenty dollars per dozen. Wooden fire plug boxes and boxes for stop cocks, J. C. Downing, the price averaging $5 50 for each box.

Select Reading by Prof. Newell.

The rooms of the Young Men's Christian Association were filled last evening with a very intelligent and appreciative audience, which had assembled to listen to Select Readings by Prof. J. R. Newell. The selections were principally narratives, rendered in a quiet, common-sense manner, which displayed good rhetoric and good taste combined. Several humorous pieces gave variety to the entertainment. The intensest interest was shown by the audience throughout the entire evening. On Tuesday evening, March 19th, William Bakewell, Esq., will deliver his interesting and instructive lecture on "Great Inventions."

Dr. W. A. McCandliss.

The Daily Commercial.

WEDNESDAY, MARCH 13, 1872.

That must have been a curious and suggestive spectacle in the Senate the other day—Senator Trumbull defending the Civil Service Reform, and advocating the appropriation of fifty thousand dollars to enable the President to carry out his purposes, while Senator Morton assailed the Reform, and declared there was nothing wrong in the present system of making recommendations to office. We by no means indorse Senator Trumbull in all that he has said and done of late, but we should be very glad if some "organ" or other would enlighten us as to which of these two Senators is in this matter the "administration" Senator, and why Morton isn't drummed out of the party for placing himself squarely in antagonism with the Executive on this important question?

We have more than once referred to the extensive and valuable trade with the various groups of the Pacific Ocean which awaited the United States, if proper energy and efforts were put forth to secure it. Such a trade has already sprung up between our Pacific ports and one of these groups—the Society Islands—which even now has attained considerable importance, and in course of time bids fair to become much more valuable. A San Francisco paper states that the value of the merchandise entered at that port from Tahiti during the last six months of last year was nearly a hundred and fifty thousand dollars, the exports to the same point being of about equal value. The cotton brought from Tahiti is said to be of a very superior quality. England thoroughly understands the prospective commercial value of these various Pacific groups, and is straining every nerve to obtain control of their commerce. In the not far distant future these islands will teem with industrial populations, and that nation which has now the foresight to reach out its hand and gather up the slight threads of trade which hang loosely about them, will ultimately find rich account in having done so.

No prominent men in France just now are the objects of more harsh criticism than the Orleans Princes. The elevation of Prince de Joinville and Duc d'Aumale to their rank in the navy and the army respectively is denounced as a manifest violation of right and justice. One of them became an admiral and the other a general "by favor of the paternal royalty," it is alleged, and with the disappearance of the King, who conferred the favors, their official rank also vanished. If their forfeited positions have been rightfully restored, for the same reason their right to the throne should be recognized. To restore them was equivalent to the erasure of the February revolution from the history of France, and an act which implied contempt for the national will. Still greater indignation is excited in many by the resolution of the Committee which recommends the re urn of the Orleans property. By the decree of 1852 it was incorporated with the possessions of the nation, a decree as valid and binding as any other decree passed after the revolution. Then, at a time when France is staggering under its enormous burden of debt, exhausted by the foreigner and almost fainting under its efforts to escape from the perils by which it is beset, for men who pretend to be deliverers of their country to ask for the gift of a hundred millions seems rather inconsistent. Indeed, many say "it is the climax of impudent rapacity." While this claim makes the Princes odious, their conduct as members of the Assembly makes them ridiculous. The chief reason assigned by them for violating their word in taking seats in the Assembly was the necessity of representing their constituents. The electors of Oise and of La Manche had chosen them their deputies, and it was absurd and revolting to suppose that through any trifling scruples they might leave those respectable electors without deputies to speak and vote for them. This was the argument. And yet to avoid unpopularity rather than compromise their royal aspirations, these conscientious representatives contrive always to be absent from the Assembly when any entangling question or any subject of national importance is under discussion.

An Italian, who evidently writes from personal knowledge of his subject, has lately published an interesting account of the manner in which Pius the Ninth is accustomed to spend his time. On days when visitors are not received, His Holiness talks about political affairs with Cardinal Antonelli and about church affairs with Cardinal Patrizzi. It seems that the Pope is rather fond of giving audience, and enjoys the display of such occasions as well as the sight of the people who seek his presence. The ceremonial observed at these audiences is well known to be very imposing. After walking, properly attended, in the gardens for a couple of hours, the Pope reads those letters reserved for his inspection as being worthy of his personal attention. Many such letters are daily received from Kings, Queens and other distinguished persons. To communications from the rival Court in Rome, of which many come in, the Pope gives prompt attention, and often smiles at their contents. These are sometimes answered in his own hand in Latin or French. His written characters are small and distinct as those of a woman. This serious business having been dispatched, His Holiness hears the newspapers read, namely the *Roman Chronicle* and the satirical paper called the *Fanfulla*, in which hits at the Italian Government or the City Council are much relished. Even caricatures are looked at and made the subjects of remarks which are certain to be repeated. When speaking of prominent Italian politicians the Pope freely indulges in irony, as when he refers to one of them as "that honest man Minghetti." Of this class in general it appears that His Holiness holds pretty much the same opinion which Mr. Marsh expressed in his unfortunate letter, and he reproaches them with having worried him in his old age. They ought, he thinks, to have spared his grey hairs and reserved their encroachments for his successor. In this the Infallible seems hardly reasonable, as events did not permit delay. It is surprising to learn that the Holy Father regards Victor Emmanuel with real respect, and does not allow his attendants to speak evil of the King, "the only Italian who has a good heart—in his own despite," as he adds with a smile. The Italian whom we report, says that the Pope will not leave Rome. "I have only a few days to live. I have nothing to reproach myself with, and hope that my successor will restore peace to the Church, since the Church must triumph." This is his language. Of deep religious convictions, and yet of a soft and yielding disposition, he is afraid of sinning by the recognition of accomplished facts, as he has sworn to maintain the Church in its possessions.

TWO WAYS TO STATE A CASE.

Few public men have devoted to the question of our national industries and resources the prolonged, comprehensive and painstaking study which Hon. W. D. Kelley has given; and few, therefore, have either the ability or the right to speak upon the subject of our revenues and finances with the directness and authority which he possesses. The somewhat sombre view which Mr. Dawes the other day took of our national receipts and expenditures was quite dispelled by the more accurate and exhaustive knowledge which Mr. Kelley subsequently brought to bear upon the subject. According to the calculation of the chairman of the Committee on Ways and Means, the country would next year be compelled to enter the market as a borrower to the extent of ten millions of dollars, should the contemplated reductions of taxation be made. Mr. Dawes, however, has a better acquaintance with statistics than with principles; while Mr. Kelley, who is not one whit behind him in the extent and variety of his information, discerns also the mighty productive forces and energies that are constantly at work among us, and so is able to cast a broader and more truthful horoscope than his fellow-member. Mr. Kelley showed, upon the basis of the receipts of the first six months of the current fiscal year, that notwithstanding there had been a repeal of taxes and duties to the amount of about fifty-five millions of dollars for the year, the revenues of the country would actually be larger than they were last year, when these taxes and duties were collected; and further demonstrated, after a critical survey of the whole question, that we might, by avoiding injudicious and excessive appropriations, effect yet another reduction to the amount of least seventy millions of dollars, without the slightest risk of compelling the Secretary of the Treasury to borrow a single penny from the balance which he keeps on hand. Taking into account the steadily increasing expansion of our resources and industries—and it is the only way of arriving at anything like accurate conclusions concerning the matter—together with our increasing ability to consume dutiable goods, Mr. Kelley computes that the income of the Government for the present year will fall but little, if any short of four hundred millions of dollars—a sum from seventy to ninety millions in excess of the estimates and of probable expenditures, including the required payment on account of the funded debt. As we have said, Mr. Kelley is entitled to speak with authority concerning all these matters; but even he should bear in mind that, wonderful as is the vitality and elasticity of the country, it is not so strong but that the tariff tinkers, should they succeed in their design of throwing the bulk of the contemplated reduction on the products of our home industries, may prove his hopeful prophecy untrue. In the struggle which is presently to come over the bill to be reported from the Ways and Means Committee, there will be need of all his knowledge, ability and earnestness, if these varied industries, and the bountiful prosperities which continually blossom out of them, are to be preserved intact.

The House of Representatives does better than the Senate. Although unanimous consent was not at once obtained, the majority did not hesitate to order a committee to investigate Secretary Robeson's management of the Navy Department. Mr. Blair, the mover, is one of the strong men of the House, and though his Republicanism, like his character, has ever been of the truest stamp, it now stands in danger of being assailed. It certainly would have been on the spot had Conkling been a member of that body. The charges against the Secretary are serious and Mr. Blair is convinced that an investigation is called for. We say the House did better than the Senate is in the habit of doing in such matters, because it ordered the investigation without debate, and made no attempt to pack a committee that it might not be done in earnest. The best remains to be said: the Secretary says he courts investigation and defies his accusers. Herein he is conspicuous.

Obituary.

HON. JOHN GRAYSON.

The Hon. John Grayson died at his residence in Washington, Pennsylvania, yesterday, at the advanced age of ninety years. Mr. Grayson was a distinguished soldier of the war of 1812. In 1817 he established the Washington *Examiner*, and was its editor and proprietor for about forty years. He was subsequently appointed Associate Judge of the courts of Washington county, the duties of which he discharged with fidelity. He also filled for several years the office of Pension Agent in this city. Mr. Grayson was widely known and esteemed as an honest and upright man, and his death, although anticipated by his immediate friends, will be sincerely lamented by all who knew him.

The oldest manufacturer of cotton goods in the United States, Mr. Moran, father of the Philadelphia publisher of that name and of the Secretary of the American Legation at London, died at his residence at Norristown, in this State, last Saturday evening, aged seventy-seven years. Mr. Moran, in addition to his creditable connection with the cotton manufacturing industries of the country, was also for many years Superintendent of Independence Hall in Philadelphia, where he was greatly esteemed by all who came in contact with him. While occupying that position he attracted the notice and acquired the friendship of President Lincoln, who subsequently nominated him to an important Consulate, which, however, he declined. Mr. Moran was possessed of unusual energy and ability, and his loss will be felt by all who knew him.

Another respected citizen of the last generation—Hon. Jacob S. Yost—died at his residence in Pottstown, on the 7th instant, at the age of seventy-one years. During many years of his life Mr. Yost was an active Democratic politician, and was at different times a member of the Legislature and of Congress, Collector of Tolls at Philadelphia, and Marshal for the Eastern District of the State. At the time of his death he was President of two important industrial corporation.

Considerable excitement exists in the Western States (and it is said to be spreading to the East) concerning the alleged gold discoveries among the Black Hills of Dakota. An exploring and mining association has already been organized at Sioux City, and large parties are reported to be getting ready to start for the scene of the alleged discovery as soon as the Spring opens. It is stated by some that the reports, highly colored as they are, are far below the real facts of the case; while others, who claim to be equally well informed, deny the existence of gold in paying quantities, and assert that the localities of the alleged deposits are within the limits of Indian reservations, and cannot legally be touched. It is to be hoped that great caution may be exercised by persons inclined to put faith in the reports; and this would seem to be all the more necessary for the reason that the agent of the Associated Press at Sioux City, who is also the telegraph operator at that point, holds the position of Treasurer and Secretary of the exploring company referred to, which is probly more of a speculative than a practical character.

In 1866, and again in 1870, when small-pox prevailed in Paris with more than common virulence, Dr. Lanoix gained considerable distinction by the force with which he urged the opinion that vaccination to be an effectual preservative from the disease, must be performed with vaccine matter derived directly from the cow. He also insisted earnestly upon the danger of propagating diseases and constitutional taints through matter taken from the human subject. Dr. Lanoix lately arrived in New York with a supply of heifers from his Paris establishment, and is prepared to vaccinate the Gothamites on an extensive scale. We believe, however, that the reform was fully introduced there before his arrival. With his compatriots the French heifers, no doubt, give Dr. Lanoix a detailed advantage.

The Bonapartist reaction in France is said to be becoming more pronounced and unmistakable every day. People are beginning to think seriously of what would probably happen in the event of the death of M. Thiers, now likely to occur at any moment, and it is reported there are very few who do not agree that the result would be the reappearance of the Empire or the Commune. Meanwhile photographs of Napoleon III reading a book, with his head resting upon one hand, and with the red ribbon of a Chevalier of the Legion d'Honneur in his button-hole, are for sale in every shop, while pictures of the Empress and of the good-natured looking Prince have appeared by hundreds in the Paris stores. All of these had disappeared after the last reaction, and their reappearance indicates in a way a new change of public feeling.

Perhaps the toughest joke which Judge Davis, the millionaire nominee of the impecunious Labor Reformers, has as yet been called upon to digest is the declaration of Henry Clay Dean, the hero of the single nether garment, that he is "very much pleased with both the platform and the nomination of the National Labor Reform Convention," and that "various meetings ought to be called everywhere to endorse this movement." He calls it "the best movement in the last ten years." It is possible that the unsavory old copperhead has at last some glimmering conception of his condition and needs, and fancies that the "movement" in question may bring him in a supply of Schurz.

"The report for 1871 of the Bureau of Education shows 5,660,074 persons over ten years of age who cannot write. There are 5.7 persons in every 100 in the Northern States, and 30 out of 100 in the Southern. This cloud of ignorance is a sad feature in our republican institutions. Nearly half of these are males, and will become voters—two and a half millions of voters who cannot read! Just think of it.—*New York Express.*

And when the Educational Bill, which was expressly designed to remedy this deplorable condition of affairs, by encouraging the various States of the Union to establish free schools and otherwise to promote the progress of education and intelligence, was recently brought up for discussion, the great majority of the Democratic members of Congress opposed it from beginning to end. Just think of it!

The Congressional apportionment bill don't suit Philadelphia. The *Post* pronounces it "an elegant piece of gerrymandering," a device "to serve the Congressional aspirations of a few professional politicians. The "motive" for thus cutting out "the first five districts," the *Post* adds, "is simply to arrange matters so as to secure one or two districts in the interest of certain individuals, whose extensive connection with the machinery that has been so long controlling our municipal affairs, will enable them to so "set up" the nominating conventions as to have themselves placed in the Congressional race course." Is it probable that the districts could be formed to suit everybody?

A recent letter, dated at Helena City, Montana Territory, contains the following: Helena City is steadily growing in wealth and enterprise. Our new smelting works for reducing silver ore, for which a company was organized late last autumn and stock raised to the amount of $40,000, are now up and running successfully in spite of the difficulties of the season. It has given a great impetus to the discovery and development of silver lodes, which are both numerous and rich in this vicinity. Very soon Montana will export more silver than Nevada, if present promise comes near fulfillment.

The bill which recently passed the Illinois Legislature, authorizing cities, incorporated towns and townships to establish and maintain free public libraries and reading rooms, is now a law, having been signed by the Governor, and any or every town in the State may now, by levying a small tax, establish a free library. This law, if taken advantage of by the people, will prove of incalculable public benefit. Would not a liberal free library system be likely to prove a valuable adjunct to our own system of popular education?

The United States Supreme Court, which will not be in session the present week owing to the pressure of business, will be detained in session until the 1st of June, which is several weeks longer than usual. Judge Nelson, it is understood, will probably not again take his seat upon the bench. His health has been so critical that he has rarely been able to leave his room during the past winter. He is still at his home in Cooperstown, New York.

GENERAL AND PARTICULAR.

A report is going the rounds of the press of an Iowa youth who was recently killed by drinking concentrated lye. This perhaps accounts for the strong reluctance which certain of our contemporaries not a thousand miles away manifest to swallowing their own words when caught in flagrant misstatements.

The dimensions of the Grand Jubilee Coliseum in Boston have been definitely fixed upon. It is to be 550 feet in length by 350 feet in width. The height in the clear between the parquet and the center of the roof will be 140 feet. The roof will be supported by 22 arches of 400 feet span, resting upon piles, from which will arise the exterior walls of the structure. The galleries will be 75 feet wide on the two sides and end fronting the orchestra. The building will stand only for one year, and will be built more for utility than beauty.

It is not generally known that oysters and clams can see. It is, however, the fact. They have not regularly constructed eyes which give distinct impressions of objects on a retina, but they have floating nerve filaments ranged among the gill fringers, that give them a sense of light. They are rudimental optics, but sufficient for all the purposes of these very humble animal forms.

England evidently does not intend that any other Alabama claims shall ever be saddled upon her, if watchfulness over suspected vessels can prevent it. It appears that in the beginning of last year two steamers which were about to clear from Liverpool for New York and Havana were seized by order of the British Government, on the suspicion, it is said, that they were intended to be used as war vessels in the interest of the Cuban insurgents. The owner of the vessels satisfied the government that the suspicion was unfounded, and he now seeks to recover about $90,000 for the losses which he sustained by the detention of the vessels.

A geologist who has been studying the rock sculptures found in different parts of Ohio, thinks them indicative of something higher than the present symbolical or picture writing of the Indians. He finds that they have many characters in common with the Oriental sign-writing or hieroglyphic alphabets, and specially notes the resemblance to a bird-track character which was used by the Chinese in their syllable alphabet some eight centuries before Christ.

Since the acquisition of Alaska the San Francisco fur trade has assumed large proportions, and it is growing larger every year. Last year the importation of raw furs into that city was valued at $2,000,000. The most of these were soon after their arrival exported.

Business in brains is brisk. Since January 1, 1871, the whole number of copyrights issued up to the end of February amounts to over 13,000. This includes copyrights for books, periodicals, newspapers, music, works of art and various other subjects. November and December are the heaviest months of the publishing business.

The Department of the Interior has issued a map of the proposed Yellowstone National Park, from surveys made last year under direction of F. V. Hayden, United States Geologist. It contains no less than 3,300 square miles, and 600 distinct hot springs, or clusters of springs. The wonders of that most remarkable country have already been described in the columns of the Commercial.

The cooperative novel, "Six of One and Half a Dozen of the Other," which has been running as a serial in *Old and New*, is the joint work of Rev. E. E. Hale, Mrs. Stowe, Miss Lucretia P. Hale, Mrs. Whitney, F. B. Perkins, and the late F. W. Loring.

Experiments have lately been tried at crossing the buffaloes with domestic cattle, and the result is pronounced highly satisfactory; a breed of animals being produced which retains many of the valuable properties of both breeds. The animals are large and strong; the chief objection to them being that no ordinary fence stops them for a moment, and that they love the water so much that they will swim and sport in it even when it is full of floating ice.

The first detachment of Catholic missionaries who are to be sent by Archbishop Manning to work among the negroes of the South, has arrived and commenced operations. About 2,500 priests are to be sent to this country for that purpose, and when it is considered how successful the Catholic missions always are, and how peculiarly fitted that religion is to attract the attention and engage the minds of the blacks, it will be seen that the Protestants have need to pay more attention to this field.

PERSONAL.

The death is announced of a niece of Queen Victoria of England—the Duchess of Saxe-Meiningen, youngest daughter of the Queen's half sister, the Princess of Hohenlohe, of scarlet fever, at Meiningen.

The Emperor and Empress of Brazil have completed their tour of Europe, and arrived in Lisbon, from which port they sail for Rio Janeiro to-day, the 13th instant.

Bayard Taylor is supposed to be the author of "The Diversions of the Echo Club," which are running in the *Atlantic Monthly*.

Sir William Jenner, the British court physician, has been invested by Queen Victoria with the insignia of the order of Knight Commander of the Bath, in recognition of the value of his services during the recent illness of the Prince of Wales.

In about two months from this time we may expect a visit to this country from Mme. Lucca, the Berlin cantatrice. We shall be lucky to get her, for she is said to be as charming a woman as she is incomparable an artiste.

The great Italian tragedian, Salvini, is at present, or was lately, playing an engagement in Rome. A correspondent thus writes of his "Othello:"

"That was a horrible treat. Salvini plays it as I never saw it played. He gives an entirely new interpretation. I was bewildered, and felt I had never before seen Shakspeare's 'Othello' represented. It is no stately, dignified, half Spaniard and half Moor, but a 'thick-lipped' half Moor and half African, with fiery passions which, when roused, dethrone reason and make him act like a madman, as he is. Salvini's by-play is everything. I never saw a character so intelligently conceived—nay, created—so richly completed and filled up.

"The night he played Othello it was Salvini's benefit night—and such a house! so brilliant and crowded. We were all upset with numberless new conceptions of the great actor. But we were startled, indeed, when in the close Salvini deliberately cuts his throat before the audience as he says—

'I took by the throat the circumcised dog
And smote him thus'—

instead of stabbing himself, as the play direction says, and as every actor I have ever seen does it.

'But,' says Story, the American sculptor, who heard a lady condemning the manner, 'Salvini is right. Think a moment; the weapons of the Moors were curved ones—how could he stab himself?'"

Mrs. Lincoln's faculties are said to be rapidly failing. She has become a convert to the "spiritualistic" theory, and has a passion for traveling about *incog.* Recently she registered herself at an Auburn, N. Y., hotel as Mrs. Linder. Here she met a distinguished clairvoyant physician with whom she was so well pleased that she intends in a few weeks to put herself under his charge, as she is in very poor health.

John Bright's ideas are sound and vigorous enough, even if his health is a good deal impaired. In a recent letter to a friend, the great English Commoner says: "I think the great revolution of opinion on many questions which is now being witnessed in this country (England) is owing mainly to the freedom of the newspaper press," which is unquestionably the correct view of the matter.

The last surviving son of the great Scottish poet, Robert Burns, died recently in his eighty-second year. Burns had six children, of whom three sons survived infancy. The second of these—William Nicol Burns—outlived both his brothers by a number of years. He was an officer in the service of the East India Company, from which he retired on half pay some thirty years ago. Col. Burns's recollections of his father were not many nor very distinct, since he was but five years old when the poet died. He was named after his father's friend William Nicol, a master in the Edinburgh High School, and one of the celebrities named in "Willie Brewed a Peck o' Maut." Col. Burns has been buried in the Burns mausoleum, at Dumfries, where his father, his brothers, and his world-widely celebrated mother, Jennie Armour, rest.

Commander Etholen, of the Russian navy, has arrived in this country. One particular object of his visit is to establish a line of steamers between St. Petersburg and New York, stopping at intermediate ports. The Russian government have allowed a large subsidy to the company which this gentleman represents. He wishes now to establish a communication between railroad and steamship companies in the United States, and to have two of the steamers built in this country, and carry the American flag, making it really a Russian-American company.

Says a New York paper: "The theaters and the opera are all making money, notwithstanding the restraining influences of the Lenten season. The Academy matinee to-day yielded about $6,000; which, added to the receipts of last night, makes a total for the two performances of about $12,500. Nilsson is going back to Philadelphia about the middle of next month, after which she will sail for Europe with a balance to her credit, as the net result of her American campaign, of not far from $100,000."

The New York Custom House investigation has borne fruit—the Leet "General Order" business has been broken up. This is worth all it has cost; and is a result which shows what blind guides such men as Conkling are. It is by reason of their course that the credit which should have been won by the reform has been neutralized, if worse is not the fact.

NATIONAL POLITICS.

The Harrisburg *Patriot*, the central Democratic organ in Pennsylvania, is for union with the "liberal Republicans," as much as intimates its willingness to go for Davis and Parker, and holds that their nomination "augurs well for the future."

The Chicago *Tribune* thinks "the indications are pretty plain that Mr. Horace Greeley, of the New York *Tribune*, will not support Gen. Grant for re-election, even if he be nominated by the Philadelphia Convention."

It is not so certain that Gov. Palmer, of Illinois, is not in the "liberal Republican" movement. A Springfield letter intimates that that he is, and those who know him will concede the inherent probability of the report.

There is a good desk in one of the divisions of the Internal Revenue Bureau, in Washington, which has become the object of quite a lively contest for possession by the lady clerks employed in the office, insomuch that every lady clerk who has been assigned thereto has had the good fortune to date her matrimonial felicity from the time of its occupancy. Two very attractive and intelligent employees of the bureau, Miss J. and Miss H., have within two years been led from the desk to the hymeneal altar, and a third, a blushing and beautiful widow, now the fortunate possessor, will, if report be true, shortly follow the example of her predecessors. Several extremely handsome, amiable and excellent lady clerks belonging to the division are watching with tender anxiety for the moment to arrive when the next vacancy shall occur, with a view to the contingent advantages attaching thereto. A number of crusty bachelors, who deserve scourging for their selfish and malicious sentiments, denominate this the "Dangerous Desk," and are in mortal fear of its influence.

Prof. Marsh, of Yale College, at a meeting of the Connecticut Academy at the Sheffield Scientific School in New Haven, gave a brief description of his tour to the West, last summer, and said, among other facts, he found in Kansas the fossil of gigantic saurians and winged reptiles. In the bridge basin he found a region full of reptile fossils, and still further west, in the basaltic region, he found vast quantities of three-toed fossil horses. The party also collected a quantity of Indian relics, and in Central America a large quantity of idols.

Lassitude and Debility.

The relaxation of nervous energy which creates an indisposition to physical or mental effort, so strong as almost to amount to positive inability, and which we term lassitude, proceeds from a variety of causes. The principal of these are constitutional debility, heat of the atmosphere, coupled with humidity, climatic changes, and the physical prostration consequent upon a long illness. But whatever the cause, it must be perfectly clear that if the nervous system is unduly relaxed, something is required to brace it up. That something is Hostetter's Bitters, which is universally recognized as the most complete and speedy recuperant of the physical forces in existence. It has been so thoroughly and widely demonstrated as to be a matter of positive certainty and familiar knowledge, that the Bitters will not only rehabilitate the phisique, when shattered and wasted by disease, but will also, if taken systematically, actually compensate the constitutionally feeble frame for its deficiency of strength, and by infusing new life into a weak system, endow it with the health and vigor which Nature has denied it. The Bitters also enable the body to resist the enervating influences of heat, humidity, and changes from a temperate to a hot climate. It is on these accounts specially to be recommended to travelers and residents in the torrid zone, and persons subjected to abrupt transitions in temperature.

Pure Bi-Carbonate of Soda.

We ask the attention of the Drug Trade to our

Natrona Bi-Carbonate of Soda

Prepared with especial reference to medicinal use. Its absolute purity and entire freedom from traces of Neutral Carbonate of Soda, Sulphate of Soda, common Salt and other impurities, render it

Nearly Tasteless,

And being bolted through fine bolting cloth, the finest state of division is insured.

We beg that the NATRONA BI-CARB SODA may be compared—not with any of the so-called "American Bi-Carbonate," prepared from Soda Ash, and containing more or less of its impurities, but with the most celebrated brands of "New Castle" or other "English" Bi-Carbonate, to any or all of which we guarantee the NATRONA BI-CARBONATE to be superior in ever requisite. The nature and purity of our raw material, "Cryolite," and the perfection and extent of our machinery enables us always to furnish an uniform and pure product not attainable by any other process. Our works for this manufacture are the largest in the world, and the only one in the United States not using Soda Ash.

Sulphuric Acid not entering into any steps of our process, the absence of every trace of Arsenic is insured, but which is well known to be present in all the ordinary Sodas of commerce.

For sale in kegs containg 112 pounds each by nearly all wholesale dealers or by the manufacturers.

FINANCE AND TRADE

TUESDAY EVENING, March 12, 1872.

We would suggest that, if some of our legislators at Harrisburg wish to have the good will of the banking fraternity, they can do so by getting the Legislature to pass a bill regulating the observance of legal holidays and the payment of commercial paper maturing on those days when they fall on Sunday.

It might be well for the sake of uniformity to make the law the same as in New York. The act of April, 1870, provides that the legal holidays "for all purposes whatsoever as regards the presenting for payment or acceptance and the protesting and giving notice of the dishonor of bills of exchange, bank checks and promissory notes, made after the passage of this act, be treated and considered as is the first day of the week, commonly called Sunday, and when either of those days shall occur on Sunday the following Monday shall be deemed a public holiday, and any bill of exchange, bank check and promissory note, made after the passage of this act, which, but for this act, would fall due and payable on such Sunday or Monday, shall become due and payable on the Tuesday next succeeding such days." Heretofore, in this State, where the legal holidays came on Sunday, they had to be disregarded by bankers, there being no authority under the law to suspend business on either the preceding or succeeding day.

—The question is asked why the difference in quotation of the regular stock of the Pennsylvania Railroad and the allotment shares, there being about 2¾ difference in the quotations. This difference is mainly accounted for in the fact that the shares carry on them from November last the next May dividend, which will no doubt be $2 50 per share—this and the loss of interest on the payments on the "allotments" bring the two prices about as near together as shares and scrip usually come. Issued stock always has a preference over the scrip evidence of shares to be issued. The sale prices represent very nearly the relative values of the two stocks.

—Messrs. Ira B. McVay & Co. report the following quotations of Government bonds in New York to-day, as furnished them by Jay Cooke & Co., their correspondents:

	Morning.	Noon.	Evening
U. S. Bonds of 1881	115⅜	115⅜	115⅜

—James T. Brady & Co., corner of Fourth avenue and Wood street, quote United States securities in New York to-day as follows:

Gold	110¼
United States 6s of 1881	115⅜

Union Pacific Railroad	....
Central Pacific Railroad	....
Currency Pacifics	114½

—Evidence is afforded that the local traffic of the Northern Pacific Railroad will be enormous. Beyond Dakota the route lies through Montana, three times the size of the Empire State of New York, with lands of unsurpassed fertility, unequaled for grazing purposes, and with large deposits of gold, silver, copper and coal—features which, with its pure and salubrious atmosphere and dry climate, are sure to draw to it an immense population. * * With the extension of the line to Puget Sound, goods will be conveyed between Liverpool and Yokohama in thirteen days less time than by the Suez Canal. Thus, independently of the colonial interests, Great Britain, which can afford to neglect nothing that will end in maintaining her ascendency in the far east trade, has an immense stake in the completion of the Northern Pacific Road.—*Herepath's Railway Journal, London.*

—An examination and analysis of the reports of the Secretary of the Treasury and Comptroller of the Currency gives some very curious and useful information. The whole amount of United States notes and fractional currency outstanding is $382,-000,000, of which amount the National Banks, 1,790 in number, hold $110,000,000, and the whole amount of National Bank notes issued is $331,000,000, of which amount the banks hold $13,000,000. From this it appears that out of the whole issue of $713,000,000 circulating notes the National Banks hold but $123,000,000, thus leaving the enormous amount of $590,000,000 in circulation, which must be mainly in the hands of the people. It also appears that the National Banks have on deposit to the credit of individual depositors $596,000,000, and $318,000,000 of circulating notes outstanding, making together $914,-000,000. If we assume that $300,000,000 of this amount belongs to the country banks, which are required to keep 15 per cent. reserve, it will take $45,-000,000, and the balance, $614,000,000, to the other banks, required to keep 25 per cent. reserve, it will be $153,000,000, making together $198,000,000 reserve required by the national currency act. The whole amount of reserve actually held by the 1,790 national banks is $145,000,000, which includes specie, legal tender notes, clearing house and three per cent. certificates, but not the $13,000,000 of National Bank notes which the law does not recognize. The Comptroller reports that there is due to National Banks, "from redeeming and reserve agents," or, in other words, from certain other National banks, ...,000,000, but this amount, although a legal reserve, is not represented by specie or legal tender.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, TUESDAY, March 12, 1872.

REMARKS.—We have been visited by another snow, and the hills and valleys are now clad in white robes. However as the weather is mild we may reasonably expect warm and genial sunshine ere long. The only changes we have to note in the markets are as follows: Bacon—plain shoulders have been reduced from 7c to 6¾; mess pork from $14 50 to $14 00; lard in tierces from 10c to 9¾c; factory cheese has advanced from 16½ to 18c; mould candles have advanced from 11 to 12c per lb. Eggs are 1a2c per dozen lower, with large receipts, yet they may rally as we are on the eve of Easter. Highwines are lower, whilst common and proof rectified have declined in like proportion. All other articles are unchanged in price with a fair trade reported. Below will be found a carefully revised list of wholesale prices:

ASHES—Stock light and prices firm: soda ash, common, at 6c; refined (high test) 6a6½c; nitrate soda 5¼c; pots 10c; pearls 11c.

APPLES—Sales good winter at $4 50a5 00 ℔ bbl; fancy $5a5 50; common $3 50. Receipts 52 bbls.

APPLE BUTTER—Prime at 70a75c per gallon; gallon pails, per dozen $10 50; hf gallon pails $6 00. Demand fair.

BEANS—There is a fair demand for prime Navy, at $2 25a2 50 ℔ bush.

BROOM CORN—Market quiet and nominal at 7a8 a9c ℔ lb.

BROOMS—Fancy $4 50; No. 1, $4 00; No. 2 $3 50; No. 3 $2 75; common, $2 25a2 50 ℔ doz.

BAKING POWDER—Royal ¼-lb cans $1 50 per doz; ½-lb cans $3 00 per dozen; 1-lb cans $6 00 per dozen; Banner $1 75, $3 25 and $6 00 per dozen for the different sizes.

BUTTER—The supply is not up to the demand for strictly prime table butter. We quote as follows: strictly prime 30c; good 25, 26a28c; medium 16a20c; grease butter 9a11c. Receipts light.

BACON AND PROVISIONS.—We make one or two changes, and quote as follows: Sugar cured hams 12c; sugar cured shoulders 8c; plain do 6¾c; rib sides 8c; clear rib do 8½c; clear do 9c; breakfast bacon 10½a11½c; dried beef 17c; mess pork $14 00; ham sausage 10½c; lard in tierces 9¾c; do half bbls 10½c; do kegs 11c; do buckets 11½c; pigs feet $2 10 ℔ keg. Receipts bacon, pieces 1,131; bacon, tierces, 109.

CHEESE—The scarcity continues, and prices are very firm. We quote Goshen at 19a20c; Factory 18c; Dairy, none in market. Receipts 40 pkgs.

CIDER—XXX $13 00 per bbl; large barrels $11 00a 12 00; extra cured $9 00a10 00.

CANDLES—Mould, 12c; stearine, 14 ounces, 13½c; full weight, 16c; star, 14 ounces, 18c; full weight 19½c.

CONCENTRATED LYE—Sales Pennsylvania at $6; other brands $5a5 50.

CARBON OIL—Demand fair, with sales at 19½a20c ℔ gallon.

CRANBERRIES—Sackett's Bell berries $17a18 ℔ bbl; cultivated berries $12a13.

CEMENT—Beeson's Phœnix Hydraulic $3 50 a3 75; Johnston $2 25; Rosendale $4 00 a4 50; Calcined plaster $4 50; Land plaster, $3 50a3 75 ℔ bbl.

FRUITS—DOMESTIC AND FOREIGN—Dried apples 8a9c; peaches, bright, new halves, 9½a10½c; old 8a9c; mixed 7½a8½c; quarters 7a8c; currants, new crop, 10c; old 8c; layer raisins, per box, $3 50; half box $1 75; Valencia do 13c; prunes 12½c for new.

EGGS—Under increased receipts prices are lower, with sales at 22a24c per dozen. It is, however, thought that prices will rally before the advent of Easter.

FLOUR—Receipts, 663 bbls. Prices are unchanged; Mills: National, white wheat, bbls $8 90; sks $8 60; Pan Handle, southern amber, bbls $8 20; sks $7 90; Morning Glory, red winter, bbls $7 80; sks $7 50; railroad, good extra, bbls $6 25; Graham flour, bbls $8 25; sks $7 90. Stores—Choice brands $8 25 per bbl; good $8 per bbl; bakers flour $7 60a7 85. Low grades and outside brands not wanted.

FISH—Lake herring $3 25 ℔ half bbl. Whitefish scarce at $6 50 per half barrel; mackeral No 1 shore, $20; extra No. 1 bay $15; No. 2 shore, medium, $10; extra $14; No. 3, large, in half bbls $4 75a5 00, and $8 50 in bbls. New Codfish, 5½c for medium, and 7c for large. New Labrador, split, $8 50; do round, $6 50.

GROCERIES—Trade is reported very active at quotations given yesterday, which were as follows:

GROCERIES.—We reduce our figures a shade, and report an active market at the following figures:

PITTSBURGH LIVE STOCK MARKET.

OFFICE OF THE PITTSBURGH COMMERCIAL, TUESDAY EVENING, March 12, 1872.

Cattle.

The receipts of cattle are light this week up to this time, and in quality are not very good. The number of buyers here is fair and the feeling has improved since last week, although, as yet, hardly enough of cattle have changed hands, on which to base quotations. If the run continues light the market will rule better. Holders are asking prices from ¼ to ½c over last week, and as advices from the East are favorable it looks as if they will succeed in getting about their own figures. Following are the rates at which sellers are holding the different grades of cattle: Extra 1,300 to 1,500 lbs cattle $6 25 to $6 75; prime 1,100 to 1,200 lbs. steers, $5 50 to $6 75; common to medium $4 75 to $5 35; stockers $4 75 to $5 00.

Hogs.

The arrivals of hogs fair to-day, are moderate, and in quality fair. The market is not very brisk, and on York hogs the feeling is not so good and prices are from 5 to 10c lower than last week. On prime prices are as yet fully sustained, but the opinion rules that a decline will take place soon. The demand is not very heavy, and a free run of stock would bring prices down. Following are the current rates for the different grades: Extra Philadelphia $5 50@5 65; prime Philadelphia, $5 25@5 30; Baltimore $5a5 10; Yorkers, $4 85.

Sheep.

The arrivals of sheep to-day fair, and in quality are an average with those generally on sale here. The market opened this morning active, and with a good demand ruling, sales were made of most of the offerings at prices a shade stronger than last week. This evening there is not much stock unsold, and the market closes firm at the following rates: Extra 100 to 110 lbs, $8 75 to $9 25; prime 85 to 90 lbs, $8 25 to $8 50; medium 80 to 85 lbs, $7 25 to $8 00; common, $5 75 to $6 50.

Louisville Market.

LOUISVILLE, March 12.—Tobacco very active and firm; sales 268 hhds lugs at $6 50a6 75; low to medium leaf $8 00a10 00; good to fine shipping leaf $10 50a 13 00. Bagging quiet and firm; sales at 16¼a17c. Cotton dull; middlings 21½c. Flour firm and in good demand; sales extra family at $7 50. Grain quiet and firm at yesterday's prices. Provisions quiet and but little doing; sales made at the following: Bacon shoulders 6c; sides clear rib 7½c; clear 7½c; in bulk meats nothing doing; bulk shoulders 5c; sides clear rib 6¾c; clear 6¾c; mess pork inactive at $13 00. Whisky quiet at 84c.

STOCKS.

There are many conflicting rumors and theories on the Stock Exchange regarding Erie. The stock has been active all day, opening at 36⅛, selling up to 37, down to 35⅜, then gradually advancing to and closing at 36⅛. Stocks on the general list opened steady. The market was firmer during the afternoon and advanced ⅛ to 1⅛ per cent. from the lowest figures of the day. The greatest improvement was in Erie, Northwest common, Pacific Mail, Western Union and Union Pacific. The sales of Erie were large to-day. Express stocks were strong; Canton sold down to 92¾ and closed at 93⅛. B. H. and Erie was ⅜ per cent. better this afternoon. Columbus, Chicago and Indiana Central is firm, with an advancing tendency, on rumors from Baltimore that the Baltimore and Ohio is trying to wrest it from the Pennsylvania Company. The market closed steady.

Boats Departing This Day.

Brownsville and Geneva U. S. Mail, 8 A. M.; 5 P. M.

Louisville—Arlington, Moore; 12 M.

Nashville—Messenger, Reed; 12 M.

THE marks last evening indicated five feet six inches and about a stand. The weather during the day was changeable. The weather wise portion of the community predict another rise before the close of the week.

CUMBERLAND river is rising rapidly.

SEVERAL boats are expected up to-day.

THE Rover and barges is receiving for St. Louis, and will have quick dispatch.

THE Evansville *Journal* wants a water guage established at that point.

THE wreck of the Major Sanders sold at Cincinnati for $1,403.

THERE are 2,500 tons of pig iron below Harpeth Shoals awaiting tonnage.

IT is said that the new Exporter, built at Pittsburgh, will carry $5,000 bales of cotton.

THE Natchez is expected to make a couple of quick trips to St. Louis in a week or two.

THE Wild Duck and barges have their cargo all on board, and will depart as soon as there is sufficient water.

THE steamer Argosy, Captain Goodwin, left for Cincinnati with a good trip. Pilots, George O'Neal and S. Spencer.

THE steamer Exchange, Captain E. Evans, left for St. Louis with all the freight she wanted. Pilot, Joseph Whittier.

THE towboat W. H. Brown passed Louisville on Sunday with six barges of iron ore. Destination, Pittsburgh.

THE two chambers fitted up on the Great Republic for the Grand Duke and Admiral Poisset, have been taken for $160 each on her present trip.

THE steamer West Virginia, Capt. P. Donaldson, left for Morgantown, the head of navigation on the Monongahela. How is that for high?

A MEETING of the Coal Exchange will be held at No. 14 Smithfield street, at 11 o'clock on Thursday. Business of importance will be transacted. A full attendance is desirable.

THE St. Louis Steam Forge and Novelty Iron Works have received the contract for the iron work on the Missouri River boats during the present season.

CINCINNATI, March 11.—The Ironsides passed up with three barges of ore for Pittsburgh. She left one flat and one barge on the other side of the river. Capt. Samuel Dean is one of her pilots.

THE steamer Brill is offered for sale at a bargain. To those in want of a boat the present opportunity is a favorable one. For further particulars call on Capt. Carlile, on the wharfboat.

THE fine steamer West Virginia, Capt. P. Donaldson, takes her departure this day at 3 P. M., for Brownsville and Geneva. Her agent is Capt. S. R. Patterson, on the wharfboat.

SUNDAY'S Louisville *Commercial* says: "Private dispatches to a gentleman in this city inform us that the steamer Katie was, on Friday last, seized and tied up at New Orleans by the United States Marshal of that district."

THE mail packets on the slack water leave on time, 8 A. M. and 5 P. M. These boats are in fine order and in charge of careful and attentive officers. For further information apply to Capt. A. S. Carlile, on the wharfboat.

CAPT. E. H. COOPER, of Belleville, Ohio, has purchased the interests of Capt. McDaniel and John Weaver, Esq., in the Parkersburg and Gallipolis mail packet Mattie Robert. Capt. Cooper takes command.

THE far-famed sidewheel packet Arlington, Capt. D. Moore, takes her departure this day at 12 M., for Cincinnati and Louisville. This boat has unsurpassed accommodations, and is in charge of careful and gentlemanly officers. The first clerk is our old friend Capt. A. S. Shepherd.

THE fine packet Messenger, Capt. G. W. Reed, is announced for Louisville, Evansville and Nashville. This boat has the best of accommodations, and is in charge of careful and attentive officers. The clerks are Messrs. Fisher and Greenlee, who will see that passengers have the best of attention.

THE Minneola was driven to the bank Friday by the wind above Oceola, and struck a log lying out of the water, which stove in her guard, near the bow, and cut her hull to the water's edge. She patched up the break and is coming to St. Louis for repairs, expecting to have them completed in time to leave for Memphis Wednesday.

THE steamers Converse and Last Chance collided forty miles above Chattanooga last Wednesday. The former had her bow stoved in, and the latter was struck under the guard and sank, and will be dismantled. No insurance. The whistle of one of the boats was out of order, and could not sound the proper signal.

THE owners of the wreck of the Abeona, Hoffinghoff & Winchell, are negotiating for raising her. Capt. Dugar offers to stop the leaks so that she can be raised for $250, and Champion will pump her out by the hour. The owners of the pig iron offer $350 toward paying the expense, and the Board of City Improvement has appropriated $350 to get the wreck from the wharf.

CHARLESTON, W. VA., March 11.—The Kanawha has more water in it to-day than at any time in the last twelve months. The towboat Chambers passed down yesterday with a big tow of coal, and the Penn. Wright came up with empty barges. The Emma Graham came up last night and departed immediately. The Clara Scott and Kanawha Belle departed this morning at nine. The weather is cold, cloudy and snowing hard.

MONDAY'S Cincinnati *Commercial* says: The hulls of the burned steamers Abeona, St. Charles and Major Anderson will be sold at public auction to-day at 3 P. M., at the foot of Sycamore street. Captain John K. Booth declined a full cargo for his barges at Cairo for New Orleans at 60 cents per barrel for flour, 90 cents for pork, and 30 cents per hundred for pound freights. There was a light fall of snow at St. Louis last night.

THE St. Louis *Democrat* says: "A gross error is being propogated and spread abroad in regard to the T head of the steamer Belle Lee's cylinder. The allegation is that there was a hole in the T head filled with lead. The T head broke, as many do, an an attempt is made to create the impression that it broke because of the leaden flaw. Messrs. Collins & Holliday, of this city, who made the head, aver solemly that the flaw was an immaterial sand hole in the rim, or ornamental part, and that the T head broke in quite another part.

MEMPHIS, March 10.—People from below by river to-day report the hail storm on Friday last the heaviest ever known. Lumps of hail fell from the clouds nearly half a pound in weight, and thousands of birds were killed in the forests. About one lake three hundred killed and crippled birds were picked up. The steamer Belle Lee encountered the gale near Delta, below Helena, and had all her windows broken on the windward side. The Ahdes passed up with 1,000 tons for the Ohio to-day. All the local packets in to-day brought heavy cargoes of cotton and produce, and an active business is anticipated this week.

THE St. Louis *Democrat* says: Steamboat deck hands are a scarce material here at present. The wages paid them are excessively high, a fact they acknowledge, but they can get the ruling figures. And yet, at these figures, the market is poorly supplied. This fact is beginning to seriously affect the movements of steamboats, and is much to be deprecated. The Commonwealth and the Belle of Pike were both compelled to lie over one day on account of the scarcity of hands. Several hundred strong men from the country can get immediate employment as deck hands at high wages.

THE CAPSTAN CASE.—On Tuesday a meeting of the Steamboat Association was held, pursuant to call, at the office of Hon. Joseph Walton, on Water street. N. J. Bigley presided, and Simpson Horner was chosen Secretary pro tem.

A resolution was adopted appropriating five hundred dollars to Mr. Rhodes for the purpose of prosecuting the McMillan capstan case before the United States Supreme Court.

On motion a committee, consisting of Captains J. A. Blackmore, James Watson, Madison Bailey and Simpson Horner, was appointed to confer with Capt. McMillan, and for other purposes.

The Treasurer was ordered to pay the bills of the Association contracted by the committee sent to Washington by the Association.

The meeting adjourned to assemble to-morrow morning at eleven o'clock.

LOUISVILLE Monday's *Courier-Journal* on the situation says: Yesterday was a bright, clear day, and decidedly the most pleasant day for the past month. There is no prospect for rain soon, and the river is likely to become as low as it has been at any time this winter. By the marks, there is but 5 feet 6 inches in the canal, and 3 feet 6 inches in the pass down the Indian chute. The past season has been one of the hardest on steamboats for several years. The repeated ice blockades and low water has prevented a large majority of steamboats from making money. With a good navigable stage of water the remainder of the season, there is but little doubt that those owning boats will come out with well-filled purses at the close of the season. Merchants from along the banks of the Ohio and Mississippi rivers and their tributaries have commenced to arrive to lay in their spring stocks, the majority of whom will ship by river.

THE 7-30 LOAN

THE SALES OF NORTHERN PACIFIC 7-30 GOLD BONDS,

On American account, during January, were $1,513,-400, and abroad about $8,000,000.

Their popularity is due to the fact that they are based upon the amplest security, being A FIRST AND ONLY MORTGAGE upon the Road, and in addition upon over FIFTY MILLION Acres of Land, susceptible of producing in abundance all the fruits, vegetables and cereals of the Eastern or Middle States.

The Government valuation of this Land Grant is ONE HUNDRED AND THIRTY MILLIONS OF DOLLARS, or more than sufficient to pay the entire cost of the Road.

With the same entire confidence with which we commended Government bonds to Capitalists and People, we now, after the fullest investigation, recommend these Northern Pacific Railroad Bonds to our friends and the general public.

MEXICAN FLUID EXT. BUCHU!

The Greatest Diuretic Ever Disc'd.

THERE IS NO TONIC LIKE IT!

THE PUREST AND MOST RELIABLE BUCHU PREPARED IS THE

Mexican Fluid Ext. Buchu,

"A positive and specific Remedy" for Non-Retention or Incontinence of Urine, Irritation, Inflammation or Ulceration of the Bladder and Kidneys, Diseases of the Prostrate Gland, Stone in the Bladder, Calculous Gravel or Brick Dust Deposit and Mucuous or Milky Discharges, and all Diseases or Affections of the Bladder and Kidneys, and Dropsical Swellings existing in men, women or children.

HOLMES & CO.'S

Fluid Extract of Mexican Buchu.

For weakness arising from Excesses, Habits of Dissipation, Early Indiscretion, or abuses attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Disease, Dimness of Vision, Wakefulness, Pain in the Back, Universal Lassitude of the Muscu ar System, Hot Hand, Flushing of the Body, Dryness of the Skin, Eruptions on the Face and Pallid Countenance.

FEMALES—In many affections peculiar to Females, the EXTRACT BUCHU is unequaled by any other remedy—as in Chlorosis, Irregularity, Painfulness or Suppression, Ulcerated or Scirrhous state of the Uterus, Sterility, and for Complaints incident to the Sex, whether arising from indiscretion, Habits of Dissipation, or in the Decline or Change of Life. It is prescribed extensively by the most eminent Physicians and Midwives, after Confinements, and for Enfeebled and Delicate Constitutions of both sexes and all ages, attended with any of the above Diseases or Symptoms.

No Family Should be Without It!

These symptoms, if allowed to go on, which this medicine invariably removes, soon follows Impotency, Fatuity, Epileptic Fits, in one of which the patient may expire. Who can say that these are not frequently followed by those "direful diseases" Insanity and Consumption. Many are aware of the cause of their sufferings, but few will confess. The records of the Insane Asylum, and the melancholy deaths by Consumption, bear ample witness to the truth of the assertion. The Constitution once affected with Organic Weakness requires the aid of medicine to strengthen and invigorate the system, which "Holmes & Co.'s Mexican Fluid Extract Buchu" invariably does.

Retailed by all Druggists at 75 CENTS PER BOTTLE, of 6 ounces, or 8 days medicine, at once placing this valuable compound within the reach of the patient, no matter how poor.

BEWARE of counterfeits. Ask for Mexican Fluid Extract Buchu. Holmes & Co., Proprietors, New York city.

BEWARE of Spurious Buchu Mixtures, prepared by self-styled doctors, which are kept before the public by notorious advertisements.

Railroad Meeting at Titusville—Propositions from Buffalo and Erie—Failure of Efforts to Conciliate—Rejoicing Over the Free Pipe Law.

TITUSVILLE, March 12.—At the railroad meeting to-day a committee was appointed to look into the matter of building a railroad to Buffalo, also one to Erie. A delegation of one hundred was present from Buffalo, including Mayor Brush, who was authorized to pledge one million dollars toward a road over their route. Fifty delegates from Erie attended, among them Senator Lowry, who in behalf of Erie obligated to build one-half the road to Erie. A Jamestown delegation of twenty were present. The meeting was enthusiastic and the people determined to place themselves beyond the reach of that gigantic monopoly known as the Southern Improvement Company. Charters will be obtained and books opened for subscriptions to the stock of the railroad to Buffalo and Erie.

Agents of Commodore Vanderbilt and Col. Scott, who have been here with a view of compromise or conciliation, have been unsuccessful and must return acknowledging themselves utterly defeated in their attempt to monopolize the business of petroleum.

A free pipe bill passed both houses to-day and became a law, which creates great rejoicings among the anti-monopolists, as it will enable them to immediately build pipe lines to Erie and Pittsburgh, giving them advantages of exportation of their great product, petroleum, to Europe. And thus dies the great Anaconda, the Southern Improvement Company.

WASHINGTON.

WASHINGTON, March 12, 1872.

IRON SHIP-BUILDING, RESTORATION OF COMMERCE, ETC.

The Secretary of the Navy sent to the Senate to-day his report as to the means of establishing iron ship-building, economizing expenditures in the navy, and restoring commerce. He favors the erection by government aid of building yards, situated with reference to the ready supply of material, and so arranged as to unite in one establishment all the means to convert this material, through all its processes, into iron ships. If the duties now imposed on foreign materials amount to prohibition to ship-building, a bounty equal to these duties should be given, on condition that American materials only should be used, to thus stimulate production in our own country of all that is required for commercial independence. Through the aid of steamships the foreign commerce of Great Britain has now reached in and for the present fiscal year the sum of $2,910,000,000. The aggregate of the world's commerce is estimated at $9,217,000,000. Great Britain, by the aid of her steamship lines in quick and cheap transportation, has gained about one-third of the entire commerce of the world. We must resort to the same means, not from a single place, but all outports of the country as she did. The routes should be selected for the present and future requirements of commerce. Coaling stations ought to be provided to guard against great steaming distance. When favorably located these will answer for places of interchange, and thus depots of commerce will be made for our manufactures and other products, and articles received in exchange will reach us by a simple and cheaper means, the profits inuring to the United States. Commerce will thus be divested of many of its burdens, and tend to the rapid increase of our general wealth. The Secretary recommends one depot in the Mediterranean, one in the West Indies, one on the Isthmus, and goes on to say it is proper to suggest chief lines of communication which may be gradually established. These lines number in all seventeen with traveling, connection and terminal and connecting ports. Six lines are named as of immediate necessity. These lines are the Mexican Gulf line, Pacific Island line, Queenstown and Liverpool line, Galway and Glasgow line, Southampton, Vlissingen and Antwerp line, Lisbon, Cadiz and Gibraltar line. These form part of the system to which others are tributary.

BONDS REDEEMED.

The total amount of called 1862 bonds under the three several calls redeemed by the Secretary of the Treasury up to the close of business to-day was $104,281,800.

NEWS SUMMARY.

BY TELEGRAPH

Under a recent act of the Mississippi Legislature all the railroads in the State are to get $40,000 a mile subsidy, and are required to pay into the State Treasury one and a half per cent. of gross receipts within two years after receiving such such subsidy.

The Supreme Court at Topeka, Kansas, yesterday set aside the verdict in the Medlicott case and ordered a new trial, mainly on the ground that the lower court admitted as testimony the dying statement of Ruth, the murdered man.

A dispatch from Jackson, Miss., states that the civil rights bill, giving equal rights to all persons on all public conveyances and in hotels, theaters and places of amusement has become a law. A negro and his wife took a seat in the theater Monday night to test the law, and were ejected.

At Greenbush, New York, yesterday, Sam'l Fargue shot his wife dead, fired at his daughter without effect, and cut his own throat with a jagged, rusty jack-knife, dying from the wound.

The Russian fleet, with the Grand Duke Alexis on board, sailed yesterday from Havana for Rio de Janeiro. The forts and vessels in the harbor fired a salute.

A Jefferson City (Missouri) correspondent of the St. Louis *Republican* states that the recent report of an interview between the reporter of the New York *Sun* and Governor Brown was manufactured out of whole cloth. The Governor was sick in bed when the reporter was in Jefferson City, and did not see him.

Latest news from San Domingo is to the effect that Baez is again powerful. He has recently retaken the towns of Savaneta and Guayabin and executed seventeen revolutionists. The Dominican authorities seized the Spanish schooner Julia on suspicion of smuggling and unrigged her. They subsequently restored her sails and rudder at the demand of the commander of the Spanish ship-of-war Tornado, but Baez rejected his additional demand for $10,000 damages, and the Tornado left without her usual salute. Baez is infuriated at the slight. Cabral has 2,000 men, but remains inactive for want of funds and ammunition. Baez, with 8,000, intends to attack him.

A mass meeting of colored employees of tobacco manufacturers in Richmond, Va., adopted resolutions deprecating the tardiness of Congress in disposing of the tobacco tax, and asking that this question, on which the sustenance of so many poor of the State depends, be at once acted on.

The Government of Prince Edwards Island was defeated and the House dissolved on Monday.

The loss by the burning of the Meriden malleable iron works, in Meriden, Conn., Monday night, was about $50,000; insurance $42,000.

The case of Brigham Young was called in the United States Court at Salt Lake, on Monday, and witnesses required to enter into recognizance to appear when called for. Defendant's counsel having inquired when the trial would come off, was informed that an adjourned term would probably be held for the purpose, but no definite information could be given until the return of Chief Justice McKean from Washington.

AS AN item indicative of the consequences that must ensue if the present reckless slashing down of the trees shall continue, the Philadelphia *Press* states that at the present rate of consumption, it is calculated by the most experienced lumbermen that in ten years the manufacture of lumber in Pennsylvania will be confined to a dozen firms, composed of men who have had the foresight to look far into the future and the means to make large purchases of timber lands when it was possible to do so, which is no longer the case.

IN TROUBLE.

A Couple of Mt. Pleasant Sports Come to Grief.

Yesterday morning two young men giving the names of James Shiveler and Geo. Atcheson called at a saloon in East Liberty kept by Mr. Clarke. They asked for and obtained a couple of glasses of liquor and in payment offered a ten dollar bill. A young woman, who was attending the bar, had not the change and asked a gentleman present to change the bill. This he did, and Shiveler and Atcheson continued to drink and became intoxicated. Subsequently they went to the Western Hotel and took lodgings. The man who had changed the bill in the meantime returned to the tavern and said that it was counterfeit, and demanded his good money back. This was returned, and then Mr. Clarke proceeded to cause the arrest of the two men on a charge of disorderly conduct in his saloon, in order to secure them and keep them in custody until he could prefer a charge of passing counterfeit money against them. Lieut. Chidlow and Officer McWilliams succeeded in arresting the two, and conducted them to the East Liberty lock-up. On being searched there were found on them a skeleton key, a bottle of chloroform and an ounce or two of opium. They were committed, and last evening were brought to the Diamond street Station House. Here Atcheson made a confession, stating that he and Shiveler had a fight at Mt. Pleasant, where they reside, and that during the scuffle Shiveler had shot at a constable. They were locked up for disposition to-day, and a telegram was forwarded to Mt. Pleasant. In answer Justice Keistler asked that the two men be held to answer for shooting at Constable Fretts. What with a charge of passing counterfeit money, and another of felonious assault and battery, the young men from the country have some trouble on their minds.

FOR some time past Anthony Hopkins, a storekeeper on Webster avenue, has been missing barrels from the front of his establishment. Yesterday morning, as he alleges, he caught a colored man named John Moore in the act of removing a barrel. He arrested him and brought him before Alderman McMasters who committed him for a hearing.

CENTRAL BOARD OF EDUCATION.

Regular Meeting Yesterday—The Business Transacted.

Yesterday afternoon the Central Board of Education held a regular meeting in their rooms in the High School Building.

The following members were present: Messrs. Ahl, Aiken, Cohen, Craig, Fleming, Hamilton, Harrison, Hartman, Kehew, Mitchell, McEwen, Praesch, Rankin, Shaw, Sims, Strain, Wilkinson, and Wilson, President.

The minutes of the meetings of the 13th and 19th of February were read and approved.

The monthly report of the City Superintendent was read and ordered to be filed.

The monthly report of the Principal of the High School stating that the enrollment for the month of February was 313, and the average attendance 277 was received and filed.

The monthly report of the Secretary showed that warrants to the amount of $16,738 04 had been drawn since the meeting of February 13th. Received and filed.

Mr. Hamilton, from the Committee on division of the Howard Sub-School District, reported in favor of the division, and that the lines be the same as divide the ward (Sixteenth) into two precincts. Accepted.

Mr. Kehew moved that the Howard sub-district be divided, in accordance with the recommendation of the committee.

Mr. Craig moved to amend by dividing the Howard sub-district as soon as the parties interested define a line which will divide said sub-district as to its assessed valuation as nearly as possible.

Mr. Harrison moved that the gentlemen present from the Howard sub-district be permitted to address the Board, which was agreed to. Mr. A B. Boal addressed the Board in favor of the proposed division.

Mr. Cohen took the ground that the Board had not the power to divide the sub-district except on petition of the directors of each sub-district.

The Chair ruled that no petition having been received from the sub-district Board that this Board could not act on the proposed division.

Mr. Craig, from the Committee on Finance, reported as follows:

February 12—Amount due Treasurer	$28,152 33
Warrants paid to date	17,542 45
Total	$45,694 78

The following are the receipts since February 12:

From City Treasurer Cochran, taxes of 1869	$ 99 00
From City Treasurer Cochran, taxes of 1870	5,327 67
From City Treasurer Cochran, taxes of 1871	1,926 35
From sale of bonds	9,000 00
Amount due Treasurer of Board	29,341 76
Total	$45,694 78
Amount of bonds unsold	17,000 00

Your committee have made several attempts to get a statement from our Collector of taxes, but have as yet failed, but will continue their efforts until they obtain a settlement. Received and filed.

Sundry committees reported organization.

On motion of Mr. Fleming, a vacation of the schools was ordered from the evening of Friday, twenty-ninth instant, until Monday, April eighth.

Mr. Aiken offered the following:

Resolved, That the Committee on Colored Schools be instructed to inquire into the expediency and necessity of establishing a school for colored children in the valley of East Liberty, to supply the wants of colored pupils of the Sixteenth, Nineteenth, Twentieth and Twenty-first wards, and report at next meeting.

On motion of Mr. Craig, amended so as to extend to any other portion of the city where the same necessity may exist.

The resolution as amended was passed.

The chair announced the Committee on Examinations: Messrs. Craig, Sterrett, McEwen and Hamilton. The Chairman, Mr. Wilson, had been appointed on the committee, at previous meeting by the Board.

The chair announced the monthly Committee on Visitation: Messrs. Cohen, Hamilton, Fleming and Nobbs.

On motion adjourned.

PUBLIC AMUSEMENTS.

Pittsburgh Opera House.

The second performance of the new drama in which Mrs. Chanfrau appears was better than the first. Sensation scenes work more smoothly, and fragmentary dialogue acquires something like coherence with the practice that grows out of repetition. To-night still further improvement may be looked for.

Fifth Avenue Opera House.

The very palpable hit which the regular company of this theater has made in "Bertha, the Sewing Machine Girl," has given such encouragement to the manager as to warrant the continued presentation of the piece till further notice. It is better to go and see actors, whose ability to please can be relied on, than to run the risk of being bored by "starrers" whom we know not of.

Trimble's Varieties Theater.

This week is one of exceptional attraction at the Varieties. The programme has not been full of such good things for ever so long. Of course the place is nightly crowded.

The Oratorio of "Esther."

So large an audience assembled in Library Hall last evening as to overflow the seating capacity of the place and render the supply of programmes insufficient. It was a thoroughly interested audience, and hearty enjoyment of the performance was constantly and unmistakably displayed; but these manifestations of satisfaction and delight were quietly decorous, rather than enthusiastically demonstrative.

"Esther" is technically a very light oratorio, and does not absolutely call for any powerful exercise of dramatic expression. For this reason it is much better suited to the exegencies of amateur interpretation than a more ambitious work would be. It has been produced with just enough adventitious aid from the accessories of scenery and costume to relieve it from any suspicion of dullness and monotony. At the same time, needless theatrical effect—to which many would object in view of the Scriptural basis of the story—has been carefully avoided. The subject is mainly treated as an episode in Jewish history, yet with the reverence due to the sacred associations with which it is invested.

The principal characters presented are those of *Esther, King Ahasuerus, Mordecai, Haman* and his wife, and Mordecai's sister, and these were severally sustained last evening by Miss Kate E. Brewster, Mr. Harry Horner, Mr. Edward E. Rinehart, Mr. James N. Bebout, Miss Mary V. Smith and Miss Ella Knapp. Around and about them are grouped a number of less conspicuous parts, in which appear Mrs. Emma B. McLain, Miss Ella Purviance, Miss Nettie Brown, Miss Sarah R. Dernitt, Miss Emma Ogden, Miss Minnie Maple, Mrs. M. P. McDermott, Miss Lizzie Mooney, Mr. C. B. Carr, Mr. George M. Petty, Mr. E. J. Unger, Mr. J. W. Boyd, Mr. C. Poindexter, Mr. A. Palmer, Mr. E. P. Long, and a large and efficient chorus.

Where all did their very best and were throughout successful, it would be scarcely fair to select any one for special praise. Miss Brewster, of course, had the largest opportunity, and she acquitted herself in a way to show an expressive voice and manner and conscientious culture to the best advantage. To-night she exchanges characters with Miss Knapp, who, as the sister of *Mordecai*, indicated the possession of a sweet and sympathetic soprano. Mr. Horace W. Nicholl artistically accompanied the vocal score on the pianoforte; but even the resources of a Steinway Grand are not equal to the area of Library Hall. The choruses sometimes seemed afraid to attack the strong points boldly, lest they should overwhelm the aid they relied on receiving from that instrument.

The Ennis Forgeries.

There was a hearing before Mayor Blackmore yesterday afternoon in the several cases of forgery in which Richard Ennis was defendant. Fred. Aims, Major Burnell, W. H. Stroup and others testified to having been sufferers through the medium of cashing bogus orders. None of the witnesses knew positively who had written the orders. In the case in which W. H. Stroup was the prosecutor Ennis was discharged, but was held for a hearing this afternoon on several suits of a similar nature.

THE revival meeting in McMaster's M. E. Church at Turtle Creek, W. D. Sleuse, pastor, which has been in progress about four weeks, is still in successful progress. One hundred and twenty persons have united with the church.

THE OIL SUITS.

Samuel McClurkan vs. Lockhart & Frew and Byers & Co.

The Defendants Close Their Case.

Rebutting Testimony of Messrs. Wilson, Cooper and Hostetter.

This case was resumed yesterday morning before Judge Kirkpatrick, of the District Court. Messrs. Barton, Acheson and Marshall for plaintiff, and Messrs. Hampton, Shiras, Woods and Watson for defendants.

The following additional testimony was elicited for the defense:

TESTIMONY OF MR. W. L. NIMICK.

William K. Nimick, recalled—By the arrangement made to lift the maturing paper, Byers & Co. were to take up the $50,000 note at the Exchange Bank, maturing March 29th, 1871, and the Superior Iron Company note, payable on demand; Byers & Co. were prepared to take up these notes; no demand was made for the Superior Iron Company note until late in the summer of 1871; the Exchange Bank note did not mature until after the development of the fraudulent use made of the other four $50,000 notes.

Cross-examination—Suit has been entered against Dr. Hostetter, on the Superior Iron Company note, as I learned from the newspapers; none of the other parties to the note were sued; I am a stockholder in the Superior Iron Company; did not consult with Mr. John Scott in regard to the suit; do not know anything about the Exchange Bank note; received no notice of protest; received no notice that the note was at Holmes'; have been informed that my name was scratched off that note; Byers & Co. have not paid the $100,000 under the arrangement; do not know what Dr. Hostetter has paid.

Re-direct—It was some time last fall that I learned from the newspapers that suit had been entered against Dr. Hostetter on the Superior Iron Company note.

MR. M'CLURKAN RECALLED.

Mr. McClurkan, recalled—After the payment of the Moorhead note, I think there were more than $500 left in the Fort Pitt Bank; there was far more than that sum left, but I do not know how much.

The defendants' counsel now propose to ask witness (McClurkan) what he was worth, at the time he possessed himself of the notes in suit, and also what he was worth at the time he purchased the two $50,000 notes—the object and purpose of the offer being to show that McClurkan was not in circumstances to have purchased said paper as a *bona fide* investment, and to warrant the defendants in claiming the said want of means, in connection with the other facts in evidence, as evidence tending to show that McClurkan is not the *bona fide* holder of the notes in suit.

Objected to by plaintiffs counsel: 1. As incompetent and irrelevant. 2. That the defendants themselves have shown affirmatively that McClurkan had means, and where he procured it for the purchase of all the notes mentioned in this offer. 3. The $50,000 notes are not in controversy in this suit.

The objection was sustained, and the defendants' counsel here closed their case.

REBUTTING TESTIMONY.

D. Leet Wilson re-called—I stated before that I am the cashier of the Fort Pitt Banking Co.; (shows witness note for $7,000, dated September 26th, 1870, being one of the notes in suit); I first saw that note December 1st, 1870; that note was discounted at the Fort Pitt Bank that day; it had nearly two months to run; it was discounted regularly before the board of directors; it was not discounted before I got it that I know of; (note for $10,000 shown to witness, being one of the notes in suit, dated September 17th, 1870); that note now belongs to the Fort Pitt Banking Co.; we procured it by discounting it for Moorhead; the Fort Pitt Banking Co.'s money discounted it and it belongs to them.

Cross examined—I was present at the board when it was discounted; it was put in the box by Dr. Hostetter, and I read the note to the board; that was on the 1st December, 1870; it was discounted at eight per cent.; Dr. Hostetter got the proceeds of that discount; it was placed to his individual account; he has a firm account and an individual account; no suit has been brought against Dr. Hostetter on this note for $7,000; I will swear to this jury that this Moorhead note was discounted at our bank; what I understand by discounting a note is this, when a note is offered there it generally has some days to run; we take off the interest for the time at whatever rate we agree upon; we then give them the proceeds of it; the board did not see this note; Dr. Hostetter told Mr. McClurkan that he wanted to get some money, Mr. McClurkan mentioned at the board that there was some paper that he wanted to get discounted—that Dr. Hostetter had spoken to him about some paper; I don't remember whether Dr. Hostetter was present at that meeting of the Board; Mr. McClurkan was acting for him as a customer; the day it was discounted was on the 17th of January; it matured on the 20th; we took four days off; it amounted to $6 67; the Board never saw that note to discount it, but they were told what note it was; they understood that it was to be paper drawn by Dr. Hostetter and indorsed by Lockhart & Frew and Byers & Co.; he stated that it was a $10,000 note; I don't know that it was the Moorhead note; I do not remember that the time it had to run was mentioned; some gentleman brought that that note to the bank did not know his name; he told me he was John Moorhead's clerk; that is what I call discounting paper in our bank; that $10,000 note was not passed to the credit of anybody; I issued the cashier's check for it; I either gave him the money, or part money and a check on the bank for it; sometimes in the morning we have $10,000 or $15,000 in the bank; we deposit our money in the Citizen's Bank; that note was brought there immediately after dinner; I cannot recollect whether we had money enough to discount that note or no; the bank book would not show it; it would show it in the morning and evening, but during the day we have money on the counter, and keep getting it in and paying it out again; Mr. McClurkan told me that Mr. Moorhead would send the note in; he told me that right then.

Re-direct—We deposit any surplus funds we have on hand in the Citizens' Bank at 3 o'clock; if we need any money we go down there and get it; if we get enough in during the day to meet the demands, we do not check on the vault; that day we had plenty of money to pay all our checks, and did pay them; we had plenty of money to discount that note; if we had not had the money we could not have paid Mr. Moorhead's note.

Re-cross-examination—Dr. Hostetter had been in the habit of having paper discounted in our bank prior to these two notes; we never had any rule in relation to discounting paper; we discounted paper at all kinds of times; I don't know whether we had ever discounted any paper that had as short a time to run or not.

Re-direct—That note was discounted in our bank before; I think on the date of this note, 17th of September, it was offered at the board, and I had the interest calculated on it, and after dinner Mr. Cooper came up and told me he had been down to see Mr. Moorhead, and said that there was a renewal of the note that Mr. Moorhead held; the note was then taken away; I did not have it entered on the book yet; then it was brought back in a few days.

Re-cross-examination (shows $10,000 note to witness)—John Moorhead's name is scratched off the back of that note; we did not take paper with the indorser scratched off in that way.

Re-direct—That name was not on it at all when it passed the board the first time.

Plaintiff's counsel now propose to prove by Mr. Wilson, cashier of the Fort Pitt Banking Company, that the proceeds of the discount of the four $50,000 notes in evidence were paid by the bank to Dr. Hostetter—this for the purpose of rebutting defendants' allegation that said money was used by the plaintiff in purchasing the notes in suit.

Defendants' counsel object—1. Because irrelevant, as not tending to show that McClurkan did not receive some of these moneys from Hostetter. 2. Because the fact that Dr. Hostetter checked out said moneys can only be properly proven by the production of the checks.

Objection overruled.

Mr. Wilson, resumed—The proceeds of those four $50,000 notes, after they were discounted, were paid both to Dr. Hostetter and to persons holding checks drawn by him in their favor; I could not tell you in whose favor he drew those checks.

Re-cross-examination—I think we have not got those checks at the bank; I think his books have been balanced since that; I do not know where they are now; it is a custom of the bank when the books are balanced to return the checks; I suppose Dr. Hostetter has got them; I could not follow the identical dollars when it was checked out; that would be impossible; it was during the next month or two; his account was down to pretty much nothing; the Doctor had a balance there in April, 1871; he was putting in in the meantime; I presume he had between $50,000 and $100,000; his deposits did not equal the checks that he drew up until April; he had his other proceeds; I could not tell you how much his deposits were short of his checks without my ledger.

Re-direct—I cannot state Dr. Hostetter's account at this date without looking at the books; I could tell when it was checked out and how it was checked out.

Re-cross-examination—I was informed that I would be examined on the other side this morning; I was not told to bring my books along.

Re-direct—They had the books out on the other side of the bar the other morning about an hour; this account of Dr. Hostetter was examined by Mr. Nimick and Mr. Woods; Mr. Nimick took a memorandum; he examined the checks.

Re-cross-examination—I went over the account with them; I cannot recollect his account.

Charles W. Cooper, sworn.—I am the bookkeeper of the Pittsburgh Petroleum Oil Company; that is the association of which you have had the testimony here; I recollect a $10,000 note that Mr. Moorhead held at one time; the note became due at the Fort Pitt Banking Co.; the notes were handed to me; I notified Byers & Co. and Lockhart & Frew—Major Frew, I think; I notified them that this note was due at the Fort Pitt Banking Co.; I was acting at that time as the clerk for the Pittsburgh Petroleum Oil Co.; as to the arrangement itself about Byers & Co., Lockhart & Frew and Dr. Hostetter each taking up $100,000 of the paper of that company, I know nothing certain as to what transpired among them; I know the fact only by understanding it so; I suppose it would be somewhere about the beginning of December, 1870.

Plaintiff's counsel propose to prove by the witness, Mr. Cooper, that since the date of the $300,000 arrangement, proven by defendants, Dr. Hostetter has advanced and paid out of his individual money, debts of the company, to wit: Promissory notes, amounting to $279,900—this for the purpose of contradicting the allegation of defendants that Dr. Hostetter broke this arrangement. And also for the purpose of contradicting defendants' witness, Maj. Wm. Frew, who testified that the Doctor claimed to have paid $60,000, but he did not know whether he had or not. And also for the purpose of contradicting the allegation of defendants that Hostetter had furnished moneys of the company to the plaintiff to buy the notes in suit. And also to negative the allegation of defendants that Dr. Hostetter was acting in bad faith towards them.

Defendants object to the foregoing offer as irrelevant so far as it proposes to go into the general accounts of the Pittsburgh Petroleum Company, by showing what amount of the debts of the company have been paid by Hostetter. If such evidence be admitted, it will be necessary for defendants to also show how much has been paid by the respective defendants, as also to show that Dr. Hostetter used bonds of the defendants to raise money paid by him. The defendants' testimony went to show an arrangement to pay *specific* paper, *i. e.*, the notes in suit; and they do not object to evidence on the part of plaintiff tending to show that Dr. Hostetter did not enter into such arrangement, or that he complied with it when made; but they do object to going into the general accounts of the Pittsburgh Petroleum Company, as matter wholly irrelevant.

The offer was supported by Mr. Marshall for the plaintiff, and opposed by Messrs. Shiras and Woods.

The Court—We will hear any and all testimony under the offer which may show, or tend to show, a compliance upon the part of Dr. Hostetter with the arrangement—if any such existed—as claimed by defendants, by which each one of the three firms was to lift $100,000 of specified paper. The offer beyond this is declined as irrelevant.

Mr. Cooper resumed—Under this arrangement Dr. Hostetter has not lifted any of the Pittsburgh paper since December, 1870; I called upon Byers & Co., Mr. Nimick and Lockhart & Frew for the oil claimed as coming to Dr. Hostetter under this arrangement in regard to paying $300,000; when these first $17,500 notes in suit were about becoming due I called on each of the parties; I did not call upon Mr. Nimick at that time, I generally saw Mr. Byers; I called at Mr. Nimick's office on the day Mr. Moorhead's note was due, the 20th of January; I told Mr. Wm. K. Nimick that this note was coming due; he said immediately that the note was paid by Dr. Hostetter; I told him it was in the Fort Pitt Banking Company and would certainly be protested if it was not lifted; he mentioned to me at that time in reference to the arrangement about the oil; he mentioned to me that Dr. Hostetter was to receive about 8,000 barrels on the arrangement; I asked him particularly about that and he said he was to receive oil; I recollect he told me that Dr. Hostetter had been badly treated, and ought to have had the oil, and would have received it, but Lockhart & Frew rather desired to drive them into giving a tank of oil called the "Bell Tank," which they declined to do; he thought, however, that Dr. Hostetter ought to have the oil; I did not see Mr. Fleming at the same time; Mr. Fleming came down to our office not a great while after that; he also remarked that Dr. Hostetter should have oil in the original arrangement as he termed it; we were speaking of this 8,000 barrels at the time; the substance of it was that Dr. Hostetter was to have oil on the arrangement, or the original arrangement—something of that kind; it struck me as remarkable because Byers & Co. said that there was no oil in the matter; Mr. Nimick and Mr. Fleming both told me that the understanding was that the Doctor was to have oil; that, certainly, is what I took out of their conversation; I have the Philadelphia notes here that were lifted by Dr. Hostetter; that is, they were not Pittsburgh Petroleum Oil Co. paper, but paper that was given on account of the company; Byers & Co. did not pay any money under this arrangement for the payment of the $300,000 notes that I know of; I kept the books of the company; there was nothing reported to me as the bookkeeper of the company; there was nothing substantial came in for me to give them credit for.

Cross-examined—I am in the service of the firm of Hostetter & Smith; I supervise their office matters and also any private matters that either member of the firm of Hostetter & Smith may require; the day I had the conversation with Wm. K. Nimick was the day the Moorhead note became due; there was a meeting of the company called that day; Mr. Nimick said something that time that the Doctor ought to have as much oil as either of the others; he mentioned that, under the arrangement, the Doctor was still entitled to 8,000 barrels of oil; he spoke of this Bell tank. I believe that was under the control of Byers & Co.; I don't know exactly the location of it.

Question—Do you undertake to state that Mr. Nimick told you in that conversation that the arrangement about Dr. Hostetter getting 8,000 barrels of oil formed part of that arrangement under which they were to take up the paper?

Answer. That was the way I understood it; what struck me as remarkable. I asked the question so that I could not be misunderstood by him; Oh, yes, he said; he was entitled to get the oil; we were speaking about the $300,000 arrangement; he may have had something else in his mind when he said that to me; the conversation with Mr. Fleming was down at our own office; I believe the Doctor was getting large quantities of oil prior to the time this arrangement had been made to take up the paper; he got it from the Standard; I think it was before that; I have perhaps an indistinct recollection that Dr. Hostetter had an order on the Standard Works from the Petroleum Oil Company for a large number of barrels of oil—some 40,000; I heard something of it in court the other day; I really know nothing more about it than that he got the order for oil; I only recollect that there was something of that kind, but as to how it was I don't know; he got some 30,000 barrels I believe; when he used the word arrangement I do not know whether he referred to the one about the money or about the oil; I asked him the question as to this arrangement—that is to this $300,000 arrangement, and he said there was oil in this arrangement; I don't know how much oil Dr. Hostetter had got from the Standard Works; I knew he was getting oil under that arrangement.

Re-direct—I do not know any division of oil; there is no division of oil on the books; I do not know how much oil any of the parties were to get under the arrangement about the oil; I believe the Doctor got an order for oil on the Standard Oil Works; I suppose there were some 12,000 barrels he did not get; I took up an order for some, and they refused to accept the order; Mr. Hutchinson represented the Standard Oil Company at that time; I don't know that I can give you all the reasons that he refused to give the oil; they claimed that there was settlings and evaporation, and my impression is that he claimed that there was not so much oil there at one time; whether it was this time or not I am not sure, but he declined to give any more oil on the order in consequence of there not being so much there.

Re-cross-examination—I cannot recollect when I took that order up; I could not tell you whether it was before or after the conversation with Mr. Nimick; I have a very bad memory; there was so much confusion about that time it was enough to deaden anyone's memory.

TESTIMONY OF DR. HOSTETTER.

Dr. David Hostetter, sworn—I was a member of this Petroleum Oil Company; I became a member about the middle of October, 1869; about the 18th of December, 1869, the company concluded they would have to have money to pay for oil that was coming in that they had contracted for; they made six pieces of paper of $50,000 each, two of which I drew, two Lockhart & Frew, and two Byers & Co.; they were drawn leaving the date out and the time; Mr. Nimick and I were deputized to go to Philadelphia to raise money; we took that paper along with some $500,000 or $600,000 of Allegheny Valley Railroad bonds and some other bonds as collateral security to raise money on; we arrived at Philadelphia on the morning of the 20th; we left, I think, on Sunday evening; Mr. Nimick had been corresponding with some persons relative to raising the amount of money, and I waited in the morning until I heard from his correspondent; I made no move; he got a telegram about 10 o'clock in the day and told me his party wanted 2½ per cent. a month, or 30 per cent. per anum; I told him that was rather steep; we went down to see Mr. Warden and told him we had the paper with us with collaterals and inquired of him what he could do; we supposed he could raise $100,000 at least at the First National Bank; We called upon Mr. Warden and told him what paper and collaterals we had; he said that 1½ per cent. was the best he could do; I started out then to hunt up some of my acquaintances and returned and informed him that I could raise money on my own paper at 12 per cent. and a quarter commission; I quit talking about this oil paper; every body in the street appeared to know about it; I then came back and gave Mr. Warden the refusal to do the paper; he said the best he could do was 1½ per cent.; I mean Wm. Warden of Warden, Frew & Co.; I then told him I preferred to raise money on my own paper and hold these as collateral security; I then went and made my own paper to the extent of $404,000 and put up those bonds as collateral security; they run from $10,000 to $40,000, just as the parties wanted it.

Council here said that Plaintiff proposes to prove by this witness, Dr. Hostetter, that on failing to get the money on the four $50,000 notes as stated, except at exorbitant rates, the witness raised and borrowed the money on his own paper, and paid it over to Wm. Frew, the disbursing agent of the company, and held these notes of the company (the four $50,000) as collateral; that when the notes issued by him as aforesaid became due, he (the witness) renewed them twice at the instance of the defendants; and at the final maturity, the company of the defendants both having failed to meet said notes, he (witness) got the four $50,000 notes discounted at the Fort Pitt Bank, and applied the proceeds in the payment of said notes so issued by him as renewals of the notes originally given in lieu of the notes of defendants, to wit: said $50,000 notes. This evidence is offered as tending to rebut the allegation that Hostetter had furnished to McClurkan part of the proceeds of these notes to buy the notes in suit; and as tending to rebut the allegation that Hostetter used the notes in violation of the rights of the drawers; and further, as showing good faith on the part of Dr. Hostetter in the use he made of the notes.

Defendants' counsel object to the foregoing offer as irrelevant, because not tending to in anywise meet or contradict the case made by them. The defendants having offered evidence that the four $50,000 notes were executed and delivered to Dr. Hostetter for the specific purpose of being negotiated at Philadelphia, and that he promised, on failing to so use them, to return them to the drawers, it is not now competent for the plaintiff to show that Dr. Hostetter undertook, in disregard of the arrangement under which he had been intrusted with said notes, to hold said paper as collateral, unless the offer is to show that he did so upon a subsequent agreement or assent on the part of defendants that he should do so. Defendants' counsel further object to the foregoing offer, so far as it proposes to show that Dr. Hostetter used the proceeds of the discount of the $50,000 notes in paying Philadelphia paper. They do not object to the offer so far as it proposes to show that Dr. Hostetter did not give any portion of said proceeds to McClurkan.

The Court heard Messrs. Shiras and Woods against the offer, and declined to hear Marshall in support of it. Objection overruled.

I issued my paper to the amount of $404,000 at one per cent a month; the proceeds I brought back charged to myself as treasurer and took receipts from William Frew for the amount; I have the receipts; some of the notes were paid at maturity and some of them were renewed three or four times; the last matured in April, 1871; some of those Philadelphia renewals matured on the 6th of April and some about the 13th, and some the last of April; I paid and took them up out of the notes that I had discounted at the Fort Pitt Banking Company: they were notes that we issued for the purpose of raising money on in Philadelphia, but not being able to negotiate them I negotiated my own notes and held them as collateral security; I held these notes until December, 1870; when these parties refused to pay the obligations either in Pittsburgh or my own obligations issued for the purposes of the company in Philadelphia, then I had them discounted in order to meet the obligations as they came due. (Shows $50,000 notes to witness.) Those notes were filled up the day I had them discounted, and the dates were put in to mature about the time the April notes matured; the notes in Philadelphia amounted to $188,500; all the others I had lifted before that; the notes maturing previous to that time, amounting to $100,000, I had lifted before that; I never gave any portion of the proceeds of the four notes maturing in the Fort Fitt Banking Co., to Samuel McClurkan to buy the notes in these suits; I used all that money myself to pay notes of my own and other notes of the company; Mr. Alex. Nimick went along with me to Philadelphia; Mr. Joseph Fleming did not go with me; he joined me about two days afterward; Mr. Nimick came home the next day; Mr. Nimick returned on Monday; I cannot say whether it was Tuesday or Wednesday Mr. Fleming came; we left Philadelphia the evening before Christmas and arrived here Christmas morning; I am not certain where we went first; I think we stopped at Lockhart & Frew's office, but there was no one in; then we went down to Fleming's office and left our baggage there; from there we went to the Iron City Bank and deposited what money we had; after that I went home to Allegheny, where I live; I never in the presence of Mr. Fleming or any one else promised to return those four $50,000 notes; no one asked me to return them; when I returned I informed Lockhart & Frew, and all the parties interested, how much money I had raised, and how I raised it; we had frequent meetings of the board of our company; when the paper was renewed by me from time to time it was at the instance of the company; I have the notes that I took up last—the notes that I paid.

Witness produces notes as follows, to wit: Three notes for $10,000 each, dated Philadelphia, January 3d, 1871, time ninety days, drawn by D. Hostetter to the order of D. Hostetter, indorser D. Hostetter, total $30,000; also, five notes for $10,000 each, dated Philadelphia, time ninety days, drawn by D. Hostetter to the order of D. Hostetter, indorsed by D. Hostetter, total $50,000; also, seven notes for $10,000, one for $6,500, and one for $12,000, dated Philadelphia, January 16th, 1871, time ninety days, drawn by D. Hostetter, to the order of D. Hostetter, indorsed D. Hostetter, total $88,500, due April 16th and 19th, 1871; also, four notes for $10,000 each, and two for $5,000 each, dated Philadelphia, December 23d, 1871, time four months, drawn by D. Hostetter, to the order of D. Hostetter, indorsed D. Hostetter, total $50,000, due April 26th, 1871; Also, note dated Philadelphia, September 28th, 1870, for $12,000, time four months, drawn by D. Hostetter to the order of D. Hostetter, indorsed D. Hostetter, due January 31st, 1871; also, three notes for $10,000 each, dated Philadelphia, October 5th, 1870, time four months, drawn by D. Hostetter to order of D. Hostetter, indorsed D. Hostetter; total $30,000; due February 5th, 1871; also five notes of $10,000 each, dated Philadelphia, September 13th, 1870, time four months, drawn by D. Hostetter to order of D. Hostetter, indorsed D. Hostetter; total $50,000; due January 16th, 1871.

Court adjourned till ten o'clock this morning.

District Court—Judge Hampton.

Eberhart Rabenstein vs. The Pittsburgh Farmers and Mechanics' Turnpike Road Company. Action to recover damages sustained by the falling of Soho bridge in 1868, alleged to have been caused by the neglect of the defendants. Plaintiff owned a small tannery on the south side of the bridge, which fell over upon his property, and into the stream, filling it up and changing its course. The water overflowed the tannery, destroying both stock and machinery. It is alleged that the bridge had been in an unsafe condition for some time, and was neglected because there was a prospect of selling out the road to the city. The case has been tried twice already. On the first trial the jury disagreed. On the second a verdict was found in favor of plaintiff for $1,600. The case occupied the day, and was not concluded at adjournment.

SOUTH SIDE COUNCILS.

Meeting of the Birmingham and East Birmingham Councils—Reports of Committees—Routine Business.

BIRMINGHAM COUNCIL.

The Birmingham Council convened last evening in the office of Burgess Salisbury.

The Burgess stated that the colored citizens had requested the use of the engine house for religiouse purposes. The request was, on motion, granted.

Mr. Atterbury reported that he had examined the accounts of the Treasurer and found them correct. Mr. Doyle reported that the Market Committee had examined the accounts of the Market Clerk, Weighmaster and Wharfmaster, and found them correct. The reports were received and ordered to be printed.

Mr. Doyle moved that the Market clerk be allowed $200 extra. Carried. The bill of H. J. Hartzell for printing consolidation tickets was presented and ordered to be paid. A vote of thanks was tendered the Burgess for the impartial manner in which he presided over the meetings of the Council.

A petition from V. T. Morgan was presented, asking permission to use the lamp posts for advertising purposes. Laid over.

The Council then adjourned *sine die*.

EAST BIRMINGHAM COUNCIL.

Held a regular meeting last evening.

Mr. Haberman, from the Finance Committee, stated that the Committee was not ready to report, and suggested that a special meeting be held either on Saturday or Monday evening next.

The report of the Wharfmaster, Mr. Shutte, was presented, showing that the receipts were $151 45. The members of the election Boards for the First and Second wards were then appointed. A number of bills were presented including the police pay roll—$254 99, and the street pay roll—$127 22, amounting in the aggregate to $489 15, and were ordered to be paid.

Council then adjourned until Monday evening next. The new Council will meet on Tuesday evening next for organization.

LAST evening as a car on the Pittsburgh and Allegheny Passenger Railway was being driven along Federal, near Lacock street, toward the car stables, one of the axles broke. The car was removed to one side of the track, and the passengers boarded the next car.

THE SOUTH SIDE.

Can the Benefits of the Pittsburgh Fire Department be Extended Thereto?

The South Side boroughs, owing to the large number of manufacturing establishments located therein, are not unfrequently visited by disastrous conflagrations, and there is a commendable movement now on foot to secure to the people of that locality the benefits of the excellently organized fire department of this city. The manufacturers have appointed a committee to confer with the City Councils and the Fire Commissioners on the subject, and it is hoped that a satisfactory arrangement can be made whereby, in case of fire, a portion of our apparatus, at least, can be sent for the relief and protection of the people on the South Side. This is a practical subject, and ought to receive the careful consideration of those representing both communities. The people of the South Side have no steamers, and are virtually without the apparatus necessary to contend against a serious conflagration. To maintain such an organization involves great expense, and if our steamers or a portion of them—with our telegraphic facilities—can be extended to the boroughs over the river, the benefits will be great and decided. The Committee have negotiations in progress, and we understand that at the next inspection of our Department, they will take occasion to look into its workings. If they cannot arrange for getting the benefit of our steamers, they will probably devise means for procuring one of their own.

FIRST GRAND INDUSTRIAL EXPOSITION, OF LOUISIANA.

The Southwestern Exposition Association OF NEW ORLEANS, LA.,

Will inaugurate the enterprise for which their Immense New Building has been erected in the business portion of the city, by

A Grand Industrial Exposition OF MANUFACTURES, PRODUCTS AND ARTS.

Commencing WEDNESDAY, May 1st, 1872, and continuing until WEDNESDAY, May 22d, 1872, every day (Sunday excepted) from 9 o'clock A. M. to 10 o'clock P. M.

Open to Receive Goods April 15, 1872.

OPEN TO THE PUBLIC MAY 1 TO MAY 22, 1872

Ample preparations have been made for the exhibition of machinery in operation; for the display of Manufactures, Products and Works of Art, and for the convenience of Exhibitors. No effort or expense will be spared to make this the LARGEST AND MOST SATISFACTORY EXHIBITION EVER HELD IN THE SOUTH.

Our Building is located in the center of the city; it is of immense size; it fronts on two of the principal business streets of the city (St. Charles and Carondelet) and is perfect in its arrangement for the purpose. The Exposition will be held in the most delightful and healthful season of the year in this section. It will be open both Day and Night, and is certain to attract a large attendance.

At the close of the Exposition, the Building will be closed for ten days (until June 3d) when it will be again opened as a Permanent Exposition and Salesroom for all Manufactured Articles and Works of Art and Ingenuity. For space in the Permanent Exposition arrangement will be made independent of the First Grand Industrial Exposition above announced.

Circulars, with full information, Blank Forms, &c., may be obtained by addressing

The Southwestern Exposition Association, New Orleans, La.

THE PROPOSITION

Made by Desmond & Co., 915 Race street, Philadelphia, to furnish free of charge until a cure is effected in all cases of Scrofula, Ulcers, Sores, Pimples, &c., the Samaritan's Root and Herb Juices, is one which should meet with attention, for by this mode of doing business the people avoid all uncertainties both of Doctors and Medicines. All that has to be done is to furnish reference that payment will be made after a cure is effected, which of course every honest person ought to be willing to do. The following will explain:

I had been troubled with an eruption and severe itching of the skin for a number of years. I spent all the money I could spare trying to get rid of it, all to no purpose. Seeing that Desmond & Co., 915 Race street, had offered the Samaritan's Root and Herb Juices, free of charge, until a cure was effected, I procured the remedy, giving as a reference that I would pay when cured, my employers, Messrs. Charles Burham & Co., tin manufacturers, 119 South Tenth street, and in three weeks after commencing the medicine, I was entirely free the disease,

SAMUEL C. NEWBERN.

CUNDURANGO!!

THE Wonderful Cancer Remedy.

ALSO, A CERTAIN CURE FOR *SCROFULA, ULCERS*, AND ALL Chronic Blood Diseases.

We have succeeded in securing a small invoice of this wonderful remedy from Drs. Bliss and Keene, of Washington and New York, who are the only parties engaged in importing the bark.

This remedy, lately discovered, has created the most profound sensation in the medical world, and is at present engaging the attention of a number of the most celebrated physicians and chemists in the country. In some of the worst cases of Cancer and Scrofula, in persons well known in the country, it has performed perfect and astonishing cures.

Read the following letter from

VICE PRESIDENT COLFAX.

"I am glad to be able to tell you that mother is really on the high road to a perfect cure, although she has only taken quarter doses of CUNDURANGO, in consequence of its scarcity. When we left Washington in April her case was absolutely hopeless, her Cancer growing fearfully and angrily. Now the tumor is three-fourths gone, pain almost gone, and every symptom favorable. She is more like herself than she has been for years. How it cures or effects Cancer I cannot imagine. You can tell your friends, however, when they obtain it, they will notice on the fourth day an improvement, and by the ninth day they will see themselves that the Cancer is going away. I am longing for its arrival, and glad that Dr. Bliss so promptly sent his partner to the distant region for it."
